Novel Agents in the Treatment of Lung Cancer: Fourth Cambridge Conference

Erlotinib: Recent Clinical Results and Ongoing Studies in Non–Small Cell Lung Cancer
Roman Perez-Soler ......................................................................................................................... 4589s

HKI-272 in Non–Small Cell Lung Cancer
Kwok-Kin Wong ............................................................................................................................... 4593s

Antibodies to the Epidermal Growth Factor Receptor in Non–Small Cell Lung Cancer:
Current Status of Matuzumab and Panitumumab
Mark A. Socinski ............................................................................................................................... 4597s

Is There a Role for Cetuximab in Non–Small Cell Lung Cancer?
Daniel Morgensztern and Ramaswamy Govindan ............................................................ 4602s

Selecting Patients for Treatment with Epidermal Growth Factor Tyrosine Kinase Inhibitors
Philip D. Bonomi, Lela Buckingham, and John Coon ....................................................................... 4606s

Bevacizumab in Non–Small Cell Lung Cancer
Alan Sandler ............................................................................................................................................. 4613s

Vascular Endothelial Growth Factor Receptor Tyrosine Kinase Inhibitors Vandetanib (ZD6474) and AZD2171 in Lung Cancer
Emer O. Hanrahan and John V. Heymach ...................................................................................... 4617s

Vascular Endothelial Growth Factor Trap in Non–Small Cell Lung Cancer
Gregory J. Riely and Vincent A. Miller .............................................................................................. 4623s

Rationale for a Phase I Trial of Erlotinib and the Mammalian Target of Rapamycin Inhibitor Everolimus (RAD001) for Patients with Relapsed Non–Small Cell Lung Cancer
Bruce E. Johnson, David Jackman, and Pasi A. Jänne ................................................................. 4628s

Antagonism of Platelet-Derived Growth Factor Receptor in Non–Small Cell Lung Cancer:
Rationale and Investigations
Julie E. Bauman, Keith D. Eaton, and Renato G. Martins ............................................................. 4632s

The Role of Phosphoinositide 3-Kinase Pathway Inhibitors in the Treatment of Lung Cancer
Jeffrey A. Engelman ........................................................................................................................... 4637s

Enzastaurin, a Protein Kinase Cβ-Selective Inhibitor, and Its Potential Application as an Anticancer Agent in Lung Cancer
Roy S. Herbst, Yun Oh, Asavari Wagle, and Michael Lahn ............................................................ 4641s

Incorporating Bortezomib into the Treatment of Lung Cancer
Angela M. Davies, Primo N. Lara, Jr., Philip C. Mack, and David R. Gandara ............................ 4647s

L-BLP25: A Peptide Vaccine Strategy in Non–Small Cell Lung Cancer
Randeep Sangha and Charles Butts ................................................................................................. 4652s
