Annual Meeting
The AACR’s Annual Meeting is one of the largest and most important annual gatherings of scientists engaged in cancer research worldwide. The next Annual Meeting will take place in Washington, D.C., from April 20–24, 1996. The Chairperson of the Annual Meeting is Lorraine J. Gudas of the Cornell University Medical College. Dr. Gudas and her Program Committee have invited outstanding scientists in the field to organize plenary sessions, symposia, methods workshops, controversy sessions, and meet-the-expert sessions. The Committee has just completed the scheduling of proffered papers in minisymposia, poster discussion sessions, and poster sessions. The deadline for abstract submissions was December 1, 1995.

Workshop on Molecular Biology in Clinical Oncology
The AACR will sponsor an intensive, one-week summer workshop on molecular biology designed for clinical oncologists in training and in their early academic careers. The workshop will take place at the Given Institute in Aspen, Colorado, from June 28–July 4, 1996. Recent advances in molecular biology are becoming more and more relevant to the diagnosis, therapy, and management of cancer patients. The workshop will give clinical oncologists the opportunity to interact closely in an informal setting with experts in the field of molecular biology, learn their language and laboratory techniques, better understand relevant literature, and communicate more effectively with their basic science colleagues.

Stephen H. Friend of the Fred Hutchinson Cancer Research Center, L. Michael Glode of the University of Colorado School of Medicine, and Jennifer A. Pietenpol of the Vanderbilt University School of Medicine will serve as chairpersons of the workshop and will invite a distinguished faculty to direct five 2½-hour laboratory sessions and deliver 20 hours of lectures. Generous support from the National Cancer Institute will provide funding for the registration fees and hotel accommodations of 65 physicians in training and oncology fellows. Ten senior clinical oncologists will also be able to attend the workshop upon payment of a registration fee. The University of Colorado School of Medicine certifies this workshop for Category 1 credits toward the AMA Physicians Recognition Award.

Information and application forms were mailed to AACR members in January. Nonmembers should request brochures from the AACR office. Applications are due in the AACR office by March 25, 1996.

AACR Bulletin Board

AACR
The American Association for Cancer Research (AACR) was founded in 1907 to bring together active investigators of the cancer problem for the presentation and discussion of new findings and to foster advances in cancer research. Today the Association has more than 10,000 members working in all of the subdisciplines of cancer research in the United States, Canada, and more than 50 other countries. Information on AACR programs and activities can be obtained from the American Association for Cancer Research.

Workshop on Methods in Clinical Cancer Research
This August the AACR and the American Society of Clinical Oncology (ASCO) will introduce a new, 6-day summer workshop on clinical research methods designed for both oncologists in training and senior investigators. The workshop will take place at the Inn at Prospector Square in Park City, Utah, from August 17–23, 1996. The overall goal of the workshop will be to educate clinical scientists in methods for clinical research and to encourage better clinical trial design so that new cancer treatments can be introduced more rapidly into general medical practice. Major support for this program has already been obtained from Bristol-Myers Squibb and Hoechst Marion Roussel Amgen, and a grant proposal has been submitted to the National Cancer Institute. Funds will be available to offset the registration fees and housing and subsistence expenses for 75 clinical trainees to attend the workshop. In addition, 25 clinical investigators at the level of junior faculty will be accepted to the workshop on payment of a registration fee. (If additional funding is received, some travel support may be available for junior faculty.)

The Workshop Organizing Committee is chaired by Drs. Daniel D. Von Hoff (for AACR) and Charles A. Coltman, Jr. (for ASCO), both of the Cancer Therapy and Research Center in San Antonio, Texas. They will invite and select a distinguished faculty that will deliver over 20 hours of lectures on a variety of topics in the field and direct four 2-hour small group discussion sessions in which 25–30 participants will obtain practical training in subjects that are essential to the success of clinical trials. In addition, all participants will be responsible for the preparation and submission of a concept sheet for an actual clinical trial protocol. Faculty will review and provide detailed critiques of these concept sheets. ASCO will certify this workshop for Category 1 credits toward the AMA Physicians Recognition Award.

Information and application forms will be mailed to AACR and ASCO members in March. Nonmembers should request brochures from the AACR office. The deadline for receipt of applications will be April 25, 1996.

AACR Special Conferences in Cancer Research
A number of meetings are now being organized in the AACR’s new series of smaller scientific meetings. Following are the topics, dates, locations, and program committees for some of these meetings. When full details of each meeting are available, AACR members will be the first to receive complete brochures and application forms for participation in these important conferences. Nonmembers may receive this information by sending their names and addresses to Meetings Mailing List, American Association for Cancer Research, Public Ledger Building, 150 South Independence Mall West, Suite 816, Philadelphia, PA 19106-3483. Telephone: (215) 440-9300. FAX: (215) 440-9313. E-Mail: aacr@aol.com.

June 8–12, 1996
Inducible Genomic Responses
Chairpersons:
WILLIAM T. BECK, Memphis, TN
JOHN A. HICKMAN, Birmingham, England
RICHARD I. MORIMOTO, Evanston, IL
Skamania Lodge, Stevenson (Columbia River Gorge), WA

October 2–6, 1996
Novel Approaches in Blood and Marrow Transplantation
Second Annual Meeting of the American Society for Blood and Marrow Transplantation
Chairpersons:
O. MICHAEL COLVIN, Durham, NC
BRUCE R. BLAZAR, Minneapolis, MN
Hotel Del Coronado, San Diego, CA
Instructions for Authors

Scope

Clinical Cancer Research, a journal of the American Association for Cancer Research, publishes original articles describing clinical research on the cellular and molecular characterization, prevention, diagnosis, and therapy of human cancer. Its focus is on innovative clinical research and translational research which bridges the laboratory and the clinic. Clinical Cancer Research is especially interested in clinical trials evaluating new treatments for cancer; research on molecular abnormalities that predict incidence, response to therapy, and outcome; and laboratory studies of new drugs and biological agents that will lead to clinical trials in patients.

Specific areas of interest include clinical and translational research in: molecular pharmacology and chemotherapy; drug sensitivity and resistance; tumor immunology and immunotherapy; radiobiology and radiation oncology; solid tumor oncology; hematological malignancies; surgical oncology; pediatric oncology; molecular oncology and cancer genes; pathology, markers, and prognostic indicators; growth factors, cytokines, and signal transduction; bone marrow transplantation; gene therapy; cancer endocrinology; cell adhesion, invasion, and metastasis; prevention of primary and recurrent cancer; differentiation and cell death; clinical genetics; and detection of minimal disease.

Editorial Policy

When a manuscript is received for consideration, the Editors assume that no similar paper has been or will be submitted for publication elsewhere. Further, it is understood that all authors listed on a manuscript have agreed to its submission. The signature of the corresponding author on the letter of submission signifies that these conditions have been fulfilled.

Journal policy requires that authors, reviewers, and Associate Editors reveal in a letter to the Editor-in-Chief any relationships that they have that could be construed as causing a conflict of interest with regard to a manuscript under review. The letter should include a statement of any financial relationships with commercial companies involved with a product under study.

Upon acceptance, authors must transfer copyright to the American Association for Cancer Research, Inc., the copyright owner of the journal, prior to publication. The Editors endorse the principles embodied in the Declaration of Helsinki and expect that all investigations involving humans will have been performed in accordance with these principles. To obtain a copy of the Helsinki Declaration, please contact the World Medical Association, 28, Ave. des Alpes, F-01210, Ferney-Voltaire, France. For animal experimentation reported in the journal, it is expected that investigators will have observed the Interdisciplinary Principles and Guidelines for the Use of Animals in Research, Testing, and Education issued by the New York Academy of Sciences' Ad Hoc Committee on Animal Research, a copy of which is available for $5.00 from the Marketing Department, New York Academy of Sciences, 2 East 63rd Street, New York, NY 10021-7289. All human and animal studies must have been approved by the investigator’s Institutional Review Board.

Review Process

The review process, expedited by fax transmission and overnight mail service, is conducted as rapidly as possible. Each submitted manuscript is reviewed by at least two experts in the field of investigation. If the authors are invited to submit a revised manuscript for an expedited further review, the revised version must be submitted within three months.

Manuscript Submission

Send manuscripts to John Mendelsohn, M.D., Editor-in-Chief, Clinical Cancer Research, at Department of Medicine, Memorial Sloan-Kettering Cancer Center, 1275 York Avenue, New York, NY 10021. Submit four original sets (not photocopies) of figures along with four copies of the manuscript. If a manuscript is closely related to papers that are in press or have been submitted elsewhere, please provide copies of those papers with your submission.

Advances in Brief will be reserved for concise, definitive reports of novel observations and discoveries that have unusual importance. A request for consideration for Advances in Brief should be included in the letter of submission. A Minireview is a brief analysis (typically 3-4 printed pages) of a focused, timely research topic, aimed at a multidisciplinary audience. Minireviews and Controversies in Clinical Cancer Research that are submitted or solicited will undergo editorial review. The Editors welcome Letters to the Editor, which will be published if they are determined to be appropriate.

The letter of submission should suggest the Associate Editor (or Editor-in-Chief) who will serve as primary reviewer of the manuscript. In addition, we invite authors to provide the names, addresses, and telephone/fax numbers of up to five potential reviewers who are not current or recent collaborators or advisors in the area under investigation.

For both original and revised submissions, we cannot guarantee that manuscripts and illustrations will be returned to the author.

Format

Manuscripts must be written succinctly in clear, grammatical English. Define abbreviations in an inclusive footnote to the text. Double-space on 8 1/2 x 11-inch paper. Dot-matrix printing is not acceptable. The format is as follows:

1. Title page, including title, authors and their institutions, research support, and address plus telephone/fax numbers of the corresponding author;
2. A running title of fewer than 50 characters;
3. Three to five key words that do not appear in the title;
4. Abstract, of not more than 250 words, stating briefly the objectives, methods, results, and conclusions of the study;
5. Text arranged in this order: Introduction, Methods, Results, Discussion, Acknowledgments, References;
6. Footnotes, on a page separate from the text. Designate footnotes consecutively with superscript Arabic numerals;
7. Tables, on pages separate from the text, with descriptive titles and legends that make the data understandable without reference to the text;
8. Figure legends, on pages separate from the text, with descriptive titles and explanations to make the data understandable without reference to the text. Define all symbols and include staining for halftones where applicable;

References
Include only those articles that have been published or are in press. Unpublished data or personal communications must be cited as footnotes to the text. Personal communications should be substantiated by a letter of permission. Number references in the order of their first mention in the text. Cite only the number assigned to the reference. References must be double-spaced.

SAMPLE REFERENCES:

Figures
Provide four original sets of figures (whether line-cut drawings or halftones). Each sorted set should be in a separate labeled envelope, for distribution to reviewers. A typed label placed on the reverse side of each figure should contain the first author’s name, figure number, and an arrow indicating top of figure. Letters and numbers on figures should not be smaller than 6-point or larger than 12-point type. All figures will be published at a width of approximately 3 inches (8 cm) unless the author requests a greater width. Use tissue overlays to indicate important areas of the photographs that must be reproduced with greater fidelity.

Authors are encouraged to submit color figures. The expense of reproducing color photographs must be offset partially by the author. In 1996, the cost of color reproduction charged to authors will be $975 per color figure. Submit color figures on flexible backing.

Proofs
Page proofs must be returned to the office of the American Association for Cancer Research within 24 hours of receipt. Return proofs by overnight mail. Proofs not received by the deadline will be published without the authors' corrections. Accepted manuscripts are regarded as final copy and should not be altered substantially in proof. Extensive alterations could cause publication delays, and authors will be charged for excessive alterations in proof.

Typesetting Manuscripts from Computer Disks
Clinical Cancer Research welcomes disks to expedite production of accepted manuscripts. If your article is accepted for publication, you will receive instructions regarding disk submission. It is the author’s responsibility to ensure that the material on the disk matches the final accepted version of the manuscript.

For more information, contact:
John Mendelsohn, M.D., Editor-in-Chief, Clinical Cancer Research, Department of Medicine, Memorial Sloan-Kettering Cancer Center, 1275 York Avenue, New York, NY 10021, Telephone 212-639-6317, Fax 212-717-3629 or:
AMERICAN ASSOCIATION FOR CANCER RESEARCH
GUIDELINES FOR APPLICATION FOR ACTIVE AND CORRESPONDING MEMBERSHIP

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society of over 10,000 laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage the presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world.

Members of the AACR enjoy the following benefits:

1. the privilege of sponsoring a proffered paper (abstract) for consideration at presentation at the AACR annual meeting;
2. an advance copy of the Program and Proceedings of the American Association for Cancer Research pertaining to each annual meeting;
3. reduced registration rates at annual meetings;
4. priority notice of small, focussed meetings in the AACR’s exciting series of Special Conferences in Cancer Research;
5. reduced registration rates for Special Conferences;
6. opportunities for participation in AACR meetings in North America and abroad with other scientific societies around the world;
7. receipt of AACR Newsletters and other important announcements;
8. early notification of and reduced rates for participation in the AACR Employment Register;
9. an up-to-date Membership Directory of thousands of researchers in the cancer field;
10. the professional benefits of the AACR’s public education activities concerning funding for cancer research and press coverage of the latest research findings;
11. participation in Summer Workshops that foster networking opportunities and science education for young investigators; and
12. many more ongoing benefits.

QUALIFICATIONS FOR MEMBERSHIP

Active membership in the AACR is open to investigators who live in the Americas. Individuals who have conducted two years of research resulting in peer-reviewed publications relevant to cancer, or who have made substantial contributions to cancer research in an administrative or educational capacity, are eligible. If a candidate has conducted research in an area of biomedical science related to cancer, he or she will qualify for membership. Evidence of patents relevant to cancer research may be submitted as qualifications for membership in lieu of peer-reviewed publications.

Corresponding membership is open to persons who are not residents of the Americas. The qualifications for corresponding membership are the same as those indicated above for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin by the anticipated time of election should apply for corresponding membership. All other visiting scientists should apply for active membership and transfer to corresponding status upon leaving the Americas.

Graduate and medical students, postdoctoral fellows, and physicians in training who do not yet meet the above qualifications for active or corresponding membership should apply for associate membership. Forms for associate membership are available from the AACR Office.

PROCEDURES FOR APPLICATION

There are three deadlines for the receipt of a membership application: January 1, May 1, and September 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors which formally elects all members. The same procedure is followed by the Special Memberships Committee which receives applications for corresponding membership. Candidates will be notified according to the following schedule:

<table>
<thead>
<tr>
<th>Receipt of Application</th>
<th>Notification of Candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td>in AACR Office</td>
<td></td>
</tr>
<tr>
<td>January 1</td>
<td>March</td>
</tr>
<tr>
<td>May 1</td>
<td>July</td>
</tr>
<tr>
<td>September 1</td>
<td>November</td>
</tr>
</tbody>
</table>

A complete application consists of the following material:

1. 6 copies of the form on the opposite side of this page, with all requested information provided.
2. 5 copies of the candidate’s most current curriculum vitae and bibliography.
3. 5 copies of a letter of recommendation from a nominator who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). This letter should describe the candidate’s achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical scientific standards. –OR– The nominator may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
4. 5 copies of a letter of recommendation as described in Item 3 above from a secondor who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). –OR– The secondor may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
5. 5 reprints of each of two publications on which the candidate appears as author. As noted above, evidence of patents developed by the candidate may be submitted in lieu of one or both of the publications. If submitting patents, supply patent number and year awarded. All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

American Association for Cancer Research
Public Ledger Building, Suite 816
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9313

RESPONSIBILITIES OF MEMBERSHIP

Candidates should be aware of the following responsibilities of membership in the AACR. Active members must pay annual dues. In 1996 annual dues for active members are $160, $95 of which is designated for AACR journal subscriptions. Newly elected members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rates will receive reimbursement of the unused portion of those subscriptions once their first year’s membership dues are paid in full.

Corresponding members are required to pay dues ($80 in 1996) and may, if they wish, subscribe to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at reduced member rates.

Applicants elected in March will be responsible for payment of that year’s dues; applicants elected in July and November will pay dues for the following year. Applicants elected in March and July will be eligible to sponsor an abstract for the next annual meeting. Every effort will be made to afford the same opportunity to applicants elected in November.

Margaret Foti, Ph.D.
Executive Director
APPLICATION FOR ACTIVE OR CORRESPONDING MEMBERSHIP

CANDIDATE SECONDED BY*: ________________________________________ (Please print)

CANDIDATE IS APPLYING FOR (Check one):  □ ACTIVE □ CORRESPONDING MEMBERSHIP

STATEMENT OF SUPPORT

Instead of submitting letters of recommendation, either the nominator or the seconder or both may complete the following section:

How long has the candidate worked in the field of cancer research? ___ years
Will the candidate make a long-term contribution to cancer research?  ____ Yes  ____ No
Does the candidate’s research adhere to accepted ethical standards?  ____ Yes  ____ No
I therefore recommend this candidate for membership in the American Association for Cancer Research.

Signature of nominator* ______________________ Date ______________________

Signature of seconder* ______________________ Date ______________________

See Guidelines for Application on the reverse side of this form for further instructions.

*Both nominator and seconder must be active, corresponding, emeritus, or honorary members of the AACR.

(This form may be reproduced.)
QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who are following a course of study or who are working in a research program relevant to cancer. Scientists in training who already have a substantial record of publications may wish to apply for active or corresponding membership which confers full benefits of membership.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world. Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring a paper for presentation at the AACR annual meeting provided that (a) the associate member is the presenter of the paper and (b) an active, corresponding, emeritus, or honorary member in good standing of the AACR also signs the abstract of the paper in support of the work (In this instance, the member who cosigns the abstract does not lose his or her own sponsorship privilege.);
2. an advance copy of the scientific Program and (if one has been purchased by the associate member) the Proceedings of the American Association for Cancer Research which contains abstracts of all papers being presented at each annual meeting;
3. the privilege of registering at the annual meeting at the low student rate (This rate is otherwise available only to predoctoral students.);
4. preferred access to the AACR Employment Register;
5. optional subscriptions to the Association’s high-quality journals Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at reduced member rates;
6. priority notification of events in the AACR’s series of special conferences on timely subjects in the field;
7. reduced registration rates at special conferences;
8. the receipt of AACR newsletters, meeting announcements, and an up-to-date membership directory; and
9. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active, corresponding, emeritus, or honorary member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the nominator. The application form may be submitted to the Association Office at any time.

After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check for one year’s dues payment must accompany the application. Dues are currently $35 for associate members residing in the Americas and $45 for residents of other countries. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be in U.S. currency, made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the $35 or $45 dues payment to:

American Association for Cancer Research
Public Ledger Building, Suite 816
150 S. Independence Mall West
Philadelphia, PA 19106-3483
215/440-9300

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1995 and 1996 have been set at $35 per year for residents of the Americas and $45 for residents of other countries. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in November 1995 for the forthcoming annual meeting must have paid dues for 1995. Any newly elected associate members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member’s subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member’s current registrar, dean, or department head, verifying the member’s current academic status. The Association’s By-Laws state that dues are payable for each year in advance by January 1 of the year to which they should be applied. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1995 may retain associate membership until December 31, 1999. The Board of Directors may terminate the membership of an associate member whose dues are in arrears for two years.

SIGNATURES
I hereby apply for associate membership in the American Association for Cancer Research. I have read the instructions on the reverse side of this form, and I understand the privileges and responsibilities of this class of membership. I certify that the statements on this application are true.

Signature of Candidate: __________________________________________ Date: ____________

I recommend this candidate for associate membership in the American Association for Cancer Research. To the best of my knowledge, the candidate is qualified for this class of membership, and the statements on this application are true.

Signature of Nominator*: __________________________________________ Date: ____________

Submit three copies of this form. At least one copy must contain the original signatures of the candidate and the nominator. Enclose a check in U.S. funds, made payable to AACR, Inc., and drawn on a U.S. bank for one year’s dues. Dues are currently $35 for associate members residing in the Americas and $45 for residents of other countries.

Check one of the following boxes only if this form is being submitted between September 1 and December 31:

☐ current ☐ forthcoming calendar year.

(NOTE: If dues are applied to the forthcoming year, membership will take effect on January 1, but the candidate will not be eligible to sponsor an abstract for presentation at the annual meeting in March or April of that year.) See Guidelines for Application on the reverse side of this form for further instructions.

*Nominate must be active, corresponding, emeritus, or honorary member of the AACR.

Software packages that we are unable to translate:

FrameMaker
PageMaker

Ready, Set, Go
Scientific Writer

Disks produced on IBM or IBM-compatible computers are preferred, but those produced on some Apple or Wang computers can also be converted. Because of the file structures and internal coding, we cannot accept disks created on desktop publishing systems or those created on proprietary typesetting systems. We also cannot guarantee that all special characters can be translated. Tabular and mathematical material, such as equations, will not be captured from the disk but will be rekeyed.

To expedite work and for your own security, we do require that you submit a hard copy printout of the disk file. The tables and equations will be keyed from this hard copy. We also need to know the name of the file to be converted, the type of hardware (e.g., IBM PC) on which the files were created, the operating system (e.g., DOS 3.3), and the version of the software (e.g., WordPerfect 5.1) used to create the file.

PLEASE FILL OUT ALL INFORMATION ON REVERSE SIDE AND SUBMIT THIS FORM WITH YOUR DISK. DISKS WILL NOT BE PROCESSED WITHOUT THIS INFORMATION.
DISK SUBMISSION FORM

AACR journals are now using personal computers to copyedit manuscripts accepted for publication. When submitting a revised manuscript, authors are encouraged to submit an electronic disk of the paper along with the required four hard copy printouts. Disks will ultimately be returned to the authors.

See reverse for the word processing packages that can be accepted.

File preparation

Please be sure that the file you send is the most recent version of the manuscript and that it matches the most recently submitted printed copy. The file should contain all the parts of the manuscript in one file. Mathematical and tabular material, however, will be processed in the traditional manner and may be excluded from the disk file.

Note: AACR does not assume responsibility for errors in conversion of customized software, newly released software, or special characters.

Please label the outside of the disk with the journal name, the first author’s name, a partial title of the manuscript, and the name of the computer file used to access the manuscript on disk. To process your disk efficiently, we need the following information. Please be sure to provide ALL the information.

Name used to access paper on disk: ________________________________
Name of computer used (e.g., IBM/PS2): ________________________________
Operating system and version (e.g., DOS 3.3): ________________________________
Word processing program and version (e.g., WordPerfect 5.0): ________________________________
[See reverse for acceptable programs.]

Manuscript number: ________________________________
First author: ________________________________
Corresponding author (if different from first author): ________________________________
Telephone/FAX numbers: ________________________________

AMERICAN ASSOCIATION FOR CANCER RESEARCH
SCIENTIFIC CONFERENCES

FEBRUARY 19-25, 1996
Cancer Susceptibility Genes and Molecular Carcinogenesis
Chairpersons: Curtis C. Harris, Bethesda, MD; Allan Balmain, Glasgow, Scotland; Kenneth Olden, Research Triangle Park, NC
Keystone Resort, Keystone, CO

MARCH 1-5, 1996
Proteases and Protease Inhibitors
Chairpersons: Lynn M. Matrisian, Nashville, TN; Bonnie F. Sloane, Detroit, MI
Marriott's Bay Point Resort, Panama City Beach, FL

APRIL 20-24, 1996
87th Annual Meeting
Chairperson: Lorraine J. Gudas, New York, NY
Washington D.C. Convention Center, Washington, D.C.
Abstract Deadline: December 1, 1995

JUNE 8-12, 1996
Inducible Genomic Responses
Chairpersons: William T. Beck, Memphis, TN; John A. Hickman, Manchester, England; Richard I. Morimoto, Evanston, IL
Skamania Lodge, Stevenson (Columbia River Gorge), WA

OCTOBER 2-6, 1996
Novel Approaches in Blood and Marrow Transplantation
Second Annual Meeting of the American Society for Blood and Marrow Transplantation
Chairpersons: O. Michael Colvin, Durham, NC; Bruce R. Blazar, Minneapolis, MN
Hotel Del Coronado, San Diego, CA

OCTOBER 6-9, 1996
Carcinogenesis from Environmental Pollution: Assessment of Human Risks and Strategies for Prevention
Joint Meeting with International Agency for Research on Cancer
Chairpersons: Frederica Perera, New York, NY; Paul Kleihues, Lyon, France
Hotel Gellért, Budapest, Hungary

OCTOBER 19-23, 1996
Programmed Cell Death
Chairperson: Stanley J. Korsmeyer, St. Louis, MO
The Sagamore, Bolton Landing (Lake George), NY

JANUARY 10-14, 1997
Basic and Clinical Aspects of Lymphoma
Joint Meeting with the American Society of Clinical Oncology
Chairpersons: Joseph R. Bertino, New York, NY; James O. Armitage, Omaha, NE
Stouffer Renaissance Esmeralda Resort, Indian Wells (Palm Springs), CA

JANUARY 17-21, 1997
Disrupted Transcription Factors in Cancer
Chairpersons: Peter K. Vogt, La Jolla, CA; Frank J. Rauscher III, Philadelphia, PA
Hotel Del Coronado, San Diego, CA

FEBRUARY 13-16, 1997
Growth Factors, Signaling, and Cancer
Joint Meeting with Lorne Cancer Congress
Chairpersons: Antony Burgess, Parkville, Victoria, Australia; Robert S. Coffey, Nashville, TN; Ashley R. Dunn, Parkville, Victoria, Australia; Webster K. Cavenee, La Jolla, CA
Erskine House, Lorne, Victoria, Australia

AACR members will receive brochures on the above special conferences as soon as they are available. Nonmembers should call or write:

American Association for Cancer Research
Public Ledger Building, Suite 816
150 South Independence Mall West

METHODS WORKSHOPS

87th AACR Annual Meeting
Washington DC Convention Center
Saturday, April 20, 1996, 2:00-6:00 p.m.

Two state-of-the-art methods workshops will be offered simultaneously during the upcoming annual meeting. A registration fee of $50.00 for members and predoctoral students, and $75.00 for nonmembers will be charged.

The intent of these sessions is to provide a detailed description of new research techniques and to illustrate their potential for cancer research. Registrants in each session will receive a handout including a selected bibliography of highly relevant articles. The American Society of Clinical Oncology designates this continuing medical education activity for 4 credit hours in Category 1 of the Physician's Recognition Award of the American Medical Association.

Methods Workshop 1
Quantitative Biology and Pharmacodynamics

Chairperson
ROBERT C. JACKSON, Agouron Pharmaceuticals, Inc., San Diego, CA

This workshop attempts to give attendees a working acquaintance with several computational pharmacology techniques that are valuable in making drug development decisions, in designing clinical trials, and in gaining quantitative insights into drug action. The methods to be discussed will include physiologically-based pharmacokinetic modeling (and its use in predicting human pharmacokinetics from preclinical data), pharmacodynamic modeling, quantitation and statistical evaluation of synergistic and antagonistic drug interactions, and the use of biochemical pathway simulations and cytokinetic models to predict the development of drug resistance. In each case the emphasis will be on the computational techniques and data analysis, rather than on data acquisition. The presentations will discuss the use of commercially available or public domain software, and participants are encouraged to bring portable computers to work out examples onsite. Programming experience, although helpful, is not essential.

Program

Pharmacodynamic Modeling. Mark J. Ratain, University of Chicago, Chicago, IL.
Quantitation of Synergism and Antagonism. William R. Greco, Roswell Park Cancer Institute, Buffalo, NY.

Methods Workshop 2
Methods of Tumor Suppression in Transgenic Models of Tumorigenesis

Chairperson
TERRY VAN DYKE, University of North Carolina, Chapel Hill, NC

Program

The Use of Transgenic Mice in Cancer Research. Terry Van Dyke.
Analysis of the Role of p53 Loss in Tumor Progression Using p53-Deficient Mice. Lawrence A. Donehower, Baylor College of Medicine, Houston, TX.
Genetic Approaches to Studying BRCA1 Function in Mice. Beverly Koller, University of North Carolina, Chapel Hill, NC.
Title to be Announced. Earl Ruley, Vanderbilt Cancer Center, Nashville, TN.
REGISTRATION FORM
METHODS WORKSHOPS 1 AND 2
87th Annual Meeting
April 20, 1996, 2:00-6:00 p.m.

PLEASE TYPE OR PRINT INFORMATION REQUESTED BELOW

Persons wishing attend a methods workshop must be registered for the AACR Annual Meeting and must pay an additional fee of $50.00 for members and predoctoral students, and $75.00 for nonmembers.

1. SELECT SESSION: Check the box next to the one methods workshop you wish to attend. You may attend only the session for which you are registered.

☐ Methods Workshop 1: Quantitative Biology and Pharmacodynamics. Robert C. Jackson, Chairperson. (Note: If you check this box, please complete Section 5 below as well.)

☐ Methods Workshop 2: Methods of Tumor Suppression in Transgenic Models of Tumorigenesis. Terry Van Dyke, Chairperson. (Note: If you check this box, please complete Section 6 below as well.)

2. NAME:
Last
First
M.I.

3. ADDRESS:
Institution
Street, Building, or P.O. Box
City
State or Province
Postal Code
Country
Telephone
FAX

4. PAYMENT (check 1):
☐ My fee has been added to the attached annual meeting registration form.
☐ I have already registered for the meeting and enclose a check for $50 (members and predoctoral students) or $75 (nonmembers)
☐ I have already registered for the meeting; charge my (check 1) ☐ MasterCard ☐ VISA ☐ American Express ☐ Eurocard
Number: ____________________________ Exp. Date _________ Signature: ____________________________

5. SUPPLEMENTAL QUESTIONS FOR REGISTRANTS FOR METHODS WORKSHOP 1 ONLY:
A. Are you involved in preclinical or clinical research with anticancer drugs?  ____Yes  ____No
B. Do you have a basic knowledge (at least) of statistics?  ____Yes  ____No
C. Do you have a basic knowledge (at least) of pharmacokinetics?  ____Yes  ____No
D. Do you have a basic level (at least) of computer literacy?  ____Yes  ____No
E. Do you have any programming experience?  ____Yes  ____No

6. SUPPLEMENTAL QUESTIONS FOR REGISTRANTS FOR METHODS WORKSHOP 2 ONLY:
A. Do you have hands-on experience with any of the following?
i. culturing mouse embryonic stem cells  ____Yes  ____No
ii. generating mouse chimeras  ____Yes  ____No
iii. design of targeted mutagenesis vectors  ____Yes  ____No
iv. generation of transgenic mice through pronuclear injections  ____Yes  ____No
v. mouse genome/gene mapping strategies?  ____Yes  ____No
vi. in situ detection within tissues?  ____Yes  ____No
B. What is the current status of mouse related technologies in your lab? (check 1 only)
____ ongoing, active, and successful; which specific area?_________________________
____ in initial stages of establishment
____ not yet part of my program
C. What are the areas in which you most need practical information? (check all that apply)
____ how to make standard targeted mutations  ____ how to culture ES cells
____ how to develop more specific targeted mutations  ____ in situ technologies
____ genome mapping techniques  ____ how to make chimeras
____ non-homologous transgens  ____ mouse data management
____ other (Specify.)________________________

THE DEADLINE FOR REGISTRATION BY MAIL IS MARCH 25, 1996
If space permits, registrations will be accepted after this date and at the annual meeting.
CARCINOGENESIS FROM ENVIRONMENTAL POLLUTION: ASSESSMENT OF HUMAN RISK AND STRATEGIES FOR PREVENTION

Joint Meeting Organized by the American Association for Cancer Research (AACC) and the International Agency for Research on Cancer (IARC)

With the Collaboration of the Hungarian Cancer Society

October 6-9, 1996
Hotel Gellért
Budapest, Hungary

CONFERENCE CHAIRPERSONS
Frederica Perera / New York, USA
Paul Kleihues / Lyon, France

PROGRAM COMMITTEE
Hans-Olov Adami / Uppsala, Sweden
J. Carl Barrett / Research Triangle Park, USA
Paolo Boffetta / Lyon, France
Edward Bresnick / Worcester, USA
Mieczyslaw R. Chorząży / Gliwice, Poland
Joseph F. Fraumeni, Jr. / Bethesda, USA

Waun Ki Hong / Houston, USA
Margaret L. Kripke / Houston, USA
Kenneth Olden / Research Triangle Park, USA
Alán Pintér / Budapest, Hungary
Manfred F. Rajewsky / Essen, Germany
David Zardzhe / Moscow, Russia

SCIENTIFIC PROGRAM

Keynote Address
Curtis C. Harris / Bethesda, USA

Cancer Incidence and Etiology
Witold A. Zatoński / Warsaw, Poland
Frederica Perera / New York, USA
J. Carl Barrett / Research Triangle Park, USA
Helmut Bartsch / Heidelberg, Germany

Hans-Olov Adami / Uppsala, Sweden
Paolo Boffetta / Lyon, France
Edward Bresnick / Worcester, USA
Mieczyslaw R. Chorząży / Gliwice, Poland
Joseph F. Fraumeni, Jr. / Bethesda, USA

Air, Water, Food, and Soil Contamination
Radim J. Šrám / Prague, Czech Republic
Joellen Lewtas / Research Triangle Park, USA
Wieslaw Jedrychowski / Cracow, Poland
Olav Axelsson / Linköping, Sweden

Ambient, Environmental, and Occupation Exposure and Cancer Risk
Mieczysław R. Chorzęży / Gliwice, Poland
Alán Pintér / Budapest, Hungary
Kimmo Peltonen / Helsinki, Finland
Monica C. Hollstein / Heidelberg, Germany
Kari Hemminki / Stockholm, Sweden

Tobacco
Ivan Plesko / Bratislava, Slovakia
Barbara S. Hulka / Chapel Hill, USA
Paolo L. Vines / Turin, Italy

The American Association for Cancer Research Presents

Molecular Biology in Clinical Oncology: A Workshop
Supported by a Generous Grant from the National Cancer Institute

An intensive, one-week summer workshop on molecular biology designed for clinical oncologists in training or in their early academic careers.

June 28-July 4, 1996
Given Biomedical Institute
Aspen, Colorado

ORGANIZERS

STEPHEN H. FRIEND
Fred Hutchinson Cancer Research Center
Seattle, WA

L. MICHAEL GLODÉ
University of Colorado School of Medicine
Denver, CO

JENNIFER A. PIETENPOL
Vanderbilt University School of Medicine
Nashville, TN

- Lectures by leading experts on molecular biology concepts and the latest developments in molecular oncology. Topics include gene therapy, oncogenes and growth factors, tumor suppressor genes, molecular genetics, metastasis genes, and drug design.

- Small group laboratory sessions to demonstrate the important experimental techniques utilized in molecular biology.

- Category I CME credits through the University of Colorado School of Medicine.

- A workshop syllabus containing relevant published papers, references to key articles in the literature, and details on important laboratory procedures.

- Financial support for participants who are physicians in training or oncology fellows.

Faculty

Lectures

ANDRÉ BERNARDS/ Charlestown, MA
KATHLEEN R. CHO/ Baltimore, MD
CYNTHIA A. EDWARDS/ Redwood City, CA
ROBERT N. EISENMAN/ Seattle, WA
ERIC R. FEARON/ Ann Arbor, MI
STEPHEN H. FRIEND/ Seattle, WA

LELAND H. HARTWELL/ Seattle, WA
TYLER JACKS/ Cambridge, MA
MARY-CLAIRE KING/ Seattle, WA
RICHARD D. KLAUSNER/ Bethesda, MD
MARC E. LIPPMAK/ Washington, DC
A. THOMAS LOOK/ Memphis, TN
HAROLD L. MOSES/ Nashville, TN

GARY J. NABEL/ Ann Arbor, MI
ALLEN I. OLIFF/ West Point, PA
JENNIFER A. PIETENPOL/ Nashville, TN
NADIA ROSENTHAI/ Charlestown, MA
PATRICIA S. STEEG/ Bethesda, MD
MIN WU/ Beijing, P. R. C.

Laboratory Rotations

MARK S. BOGUSKI/ Bethesda, MD. "Computer Searching in Molecular Biology."
JULIE A. CAMPAIN/ Denver, CO. "Polymerase Chain Reaction Technology."
JAMES P. HOFFLER/ San Diego, CA. "Transfer of Nucleic Acids and Proteins."
MARIEI LA V. GARCIA/ Denver, CO. "Practical Cytogenetics."
CORI GORMAN/Burlingame, CA. "Gene Expression Systems."

Application Deadline March 25, 1996

*An application for Associate Membership may accompany this form, but these should be submitted well before the March 1 deadline, as review of the Associate Membership application may delay registration.

*Students must enclose a statement, signed by the registrar, dean, or department head of their university or college on official letterhead, confirming their status. Postdoctoral fellows or physicians in training do not qualify for the student registration rate.

*AACR members with paid-up subscriptions to an AACR journal and registrants who pay the nonmember fee receive the Proceedings automatically. If these members or nonmembers check this box and pay the fee, they will receive an additional copy of the Proceedings.

*Optional payment for registrants outside of the U.S. and Canada only. Registrants paying this surcharge will receive meeting publications via airmail–printed matter before the annual meeting. This service is not available after March 1.

AACR members in good standing will receive copies of the Program and Proceedings prior to the meeting. Nonmember and student registrants who meet the March 1 deadline will also receive the Program and (if they have purchased it) the Proceedings prior to the meeting. Nonmembers and students who do not meet the deadline must pick up publications at the meeting site.

**REFUND POLICY**

Refunds on registration fees will be granted on written request received in the AACR Office by April 17, 1996. Requests received after this date will not be honored. Receipts and badges (if they have been mailed) must be returned to the AACR Office with the refund request. A cancellation fee of $35 will be deducted from all refunds to cover administrative costs.

AMERICAN ASSOCIATION FOR CANCER RESEARCH

The American Association for Cancer Research (AACR) is a professional society of over 10,600 scientists and physicians involved in all aspects of basic, clinical, and translational cancer research. Members of the AACR enjoy

• subscriptions to Cancer Research, Cell Growth & Differentiation (CG&D), Cancer Epidemiology, Biomarkers & Prevention, and Clinical Cancer Research at reduced member rates
• reduced registration rates at the AACR Annual Meeting, Special Conferences, and International Meetings
• Employment Register, Directory of Members, public education activities, and many other benefits

Special programs to provide enhanced career development opportunities for minority scientists include

• Session on Career Development at Annual Meeting
• Mentorship Program
• Travel Awards to Scientific Meetings

SCIENTIFIC PROGRAM DIRECTOR

The American Cancer Society is seeking applicants for the position of Scientific Program Director in the Research Grants Department at the National Home Office in Atlanta, Georgia. The start date is August 1, 1996.

The overall responsibility of this position is to ensure unbiased, rigorous peer review of grant applications by the Society's Scientific Advisory Committees. The successful candidate will be responsible for managing the peer review of applications for clinical research and training awards. In addition, Scientific Program Directors serve as expert sources of information on advances in cancer research, advise about promising future areas of investigation in their specific areas of expertise, and participate in collaborative projects throughout the Society.

Applicants must have an MD or equivalent degree plus five years of recent experience as an established investigator on peer reviewed clinical or related oncology research projects. The position is largely administrative and reports to the Vice President for Research Grants. Salary is commensurate with the candidate's qualifications and experience.

The American Cancer Society's National Research Program (Extramural Grants, Intramural Epidemiology and Surveillance Research, and the Behavioral Research Unit) is housed in the National Home Office, in close proximity to Emory University and the Centers for Disease Control and Prevention. For confidential consideration, please send letter of interest, curriculum vitae and the names of three references by May 1, 1996 to: John J. Stevens, MD, Vice President for Research Grants, American Cancer Society, 1599 Clifton Rd, N.E., Atlanta, GA 30329-4251
