Plasma MicroRNA Are Disease Response Biomarkers in Classical Hodgkin Lymphoma
Kimberley Jones, Jamie P. Nourse, Colm Keane, Atul Bhatnagar, and Maher K. Gandhi

Modeling RAS Phenotype in Colorectal Cancer Uncovers Novel Molecular Traits of RAS Dependency and Improves Prediction of Response to Targeted Agents in Patients
Justin Guinney, Charles Ferté, Jonathan Dry, Robert McEwen, Gilles Manceau, KI Kao, Kai-Ming Chang, Claus Bendtsen, Kevin Hudson, Erich Huang, Brian Dougherty, Michel Ducreux, Jean-Charles Soria, Stephen Friend, Jonathan Derry, and Pierre Laurent-Puig

ABOUT THE COVER
The cover shows immunofluorescent labeling of the blood-brain barrier marker GLUT-1 (red) in cultured human brain microvascular endothelial cells. Nuclei (blue) were stained with DAPI. For details, see the article by Malin and colleagues on page 56 of this issue.
