ABOUT THE COVER

The cover shows a section of non-small cell lung cancer histospot. Immunohistochemistry stain shows simultaneous detection of B7-H3 (red channel), B7-H4 (blue channel), and cytokeratin (green channel). Visually, in this histospot, B7-H3 and B7-H4 proteins do not show colocalization. For details, see the article by Altan and colleagues on page 5202 of this issue
