Institution of Page Charges
Effective January 1, 1997, a page charge of $35 per printed page was levied on all manuscripts published in Clinical Cancer Research. It is understood at the time of submission that the author is willing to pay this charge in the event of publication. Under exceptional circumstances, when no other source of grant or other support exists, the author(s) may apply to Dr. Margaret Foti, Director of Publications, AACR Publications Department (see page ii for address) at the time of submission for a waiver of the page charges. All such applications must be countersigned by an appropriate institutional official stating that no funds are available for the payment of page charges.

Annual Meeting
The AACR’s Annual Meeting is one of the largest and most important annual gatherings of scientists engaged in cancer research worldwide. The next Annual Meeting will take place in San Diego, CA, April 12–16, 1997. The Chairperson of the Annual Meeting is Frederick Li of the Dana-Farber Cancer Institute. Clara Derber Bloomfield of the Roswell Park Memorial Institute and Stephen H. Friend of the Fred Hutchinson Cancer Research Center will serve as Co-Chairpersons. The Program Committee has invited outstanding scientists in the field to organize plenary sessions, symposia, controversy sessions, and meet-the-expert sunrise sessions. They are also now reviewing the proffered papers submitted by members of the cancer research community. The deadline for abstract submissions was November 12, 1996. Up-to-date program information can be obtained via the Internet at AACR’s website (http://www.aacr.org/meetings.html).

Workshop on Molecular Biology in Clinical Oncology
The AACR will sponsor an intensive, one-week summer workshop on molecular biology designed for clinical oncologists in training and in their early academic careers. The workshop will take place at the Given Biomedical Institute in Aspen, Colorado, from June 27–July 3, 1997. Recent advances in molecular biology are becoming more and more relevant to the diagnosis, therapy, and management of cancer patients. The workshop will give clinical oncologists the opportunity to interact closely in an informal setting with experts in the field of molecular biology, learn their language and laboratory techniques, better understand relevant literature, and communicate more effectively with their basic science colleagues.

Stephen H. Friend of the Fred Hutchinson Cancer Research Center, L. Michael Glodé of the University of Colorado School of Medicine, and Jennifer A. Pietenpol of the Vanderbilt University School of Medicine will serve as chairpersons of the workshop and will invite a distinguished faculty to direct five 2½-hour laboratory sessions and deliver 20 hours of lectures. Generous support from the National Cancer Institute will provide funding for the registration fee and hotel accommodations of 65 physicians in training and oncology fellows. Ten senior clinical oncologists will also be able to attend the workshop upon payment of a registration fee.

AACR
The American Association for Cancer Research (AACR) was founded in 1907 to bring together active investigators of the cancer problem for the presentation and discussion of new findings and to foster advances in cancer research. Today the Association has more than 12,000 members working in all of the subdisciplines of cancer research in the United States, Canada, and more than 50 other countries. Information on AACR programs and activities can be obtained from American Association for Cancer Research
Public Ledger Building
150 South Independence Mall West
Suite 826
Philadelphia, PA 19106-3483
Phone: (215) 440-9300
Fax: (215) 440-9313
E-mail: aacr@aacr.org

The AACR welcomes applications for membership from the readership. Scientists engaged in all areas of cancer research are eligible for membership. There are three categories of membership: active membership, open to cancer researchers working in the Americas; corresponding membership, to those working outside the Americas; and associate membership, to graduate and medical students, postdoctoral fellows, and physicians-in-training. Further information on the qualifications for each category as well as the benefits of membership can be found on the application forms at the back of this issue.

Workshop on Methods in Clinical Cancer Research
This July the AACR and the American Society of Clinical Oncology (ASCO) will sponsor a six-day summer workshop on clinical research methods designed for both oncologists in training and senior investigators. The workshop will take place at the Vail Cascade Hotel and Club in Vail, Colorado, from July 6 to August 1, 1997. The overall goal of the workshop will be to educate clinical scientists in methods for clinical research and to encourage better clinical trial design so that new cancer treatments can be introduced more rapidly into general medical practice. Major support for this program has already been obtained from the National Cancer Institute, Bristol-Myers Squibb, and Amgen. Funds will be available to offset the registration fees and housing and subsistence expenses for 75 clinical trainees to attend the workshop. In addition, 25 clinical investigators at the level of junior faculty will be accepted to the workshop upon payment of a registration fee. (Some travel support will also be available for junior faculty.)

The Workshop Organizing Committee is chaired by Drs. Daniel D. Von Hoff (for AACR) and Charles A. Coltman, Jr. (for ASCO), both of the Cancer Therapy and Research and Research Center in San Antonio, Texas. They will invite and select a distinguished faculty that will deliver over 20 hours of lectures on a variety of topics in the field and direct eight small-group discussion sessions in which 15–20 participants can review important aspects of the design of clinical trials. In addition, each participant will be responsible for the preparation of an actual protocol for a clinical trial while attending the workshop. Groups of six to eight students will meet with two assigned faculty members on several occasions during the week to review intermediate drafts of these protocols. ASCO will certify this workshop for Category 1 credits toward the AMA Physicians Recognition Award.

Information and application forms will be mailed to AACR and ASCO members in March. Nonmembers should request brochures from the AACR office.

AACR Special Conferences in Cancer Research
A number of meetings are now being organized in the AACR’s series of smaller scientific meetings. Following are the topics, dates, locations, and program committees for some of these meetings. When full details of each meeting are available, AACR members will be the first to receive complete brochures and application forms for participation in these important conferences. Nonmembers may receive this information by sending their names and addresses to Meetings Mailing List, American Association for Cancer Research, Public Ledger Building, 150 South Independence Mall West, Suite 816, Philadelphia, PA 19106-3483. Telephone: (215) 440-9300. Fax: (215) 440-9313. E-mail: aacr@aacr.org. Up-to-date program information is available via the Internet from the AACR’s website (http://www.aacr.org/confrm.html).

June 7–11, 1997
Cancer of the Central Nervous System Conference with Neurosurgery Joint Section on Tumors
Chairpersons:
PETER Mcl., BLACK, Boston, MA
WEBSTER K. CAVENEE, La Jolla, CA
Loews Coronado Bay Resort, San Diego, CA

September 26–30, 1997
Tumor Suppressor Genes
Co-Sponsored by the National Cancer Institute of Canada
Chairpersons:
PHILIP BRANTON, Montreal, Quebec, Canada
STEPHEN H. FRIEND, Seattle, WA
Victoria Conference Centre, Victoria, BC, Canada

Information and application forms were mailed to AACR members in February. Nonmembers should request brochures from the AACR office.

Clinical Cancer Research 645
Vol. 3, 645, April 1997
AACR Bulletin Board

The American Association for Cancer Research (AACR) accomplishes its mission through the organization of congresses, symposia, and special groupings of scientists dedicated to the study of cancer. In 1907, the Association was chartered as a "nonprofit educational corporation" for the purposes of "providing a forum for the dissemination and exchange of information and ideas in all aspects of cancer research, and for the advancement of basic and clinical research in cancer." The Association's current mission is consistent with its charter: "The American Association for Cancer Research is an organization whose primary purpose is to further the understanding and the prevention of cancer through research, education, and information dissemination." (From the "Statement of Mission," updated January 1, 1995.)
Instructions for Authors

Scope
Clinical Cancer Research, a journal of the American Association for Cancer Research, publishes original articles describing clinical research on the cellular and molecular characterization, prevention, diagnosis, and therapy of human cancer. Its focus is on innovative clinical research and translational research which bridges the laboratory and the clinic. Clinical Cancer Research is especially interested in clinical trials evaluating new treatments for cancer; research on molecular abnormalities that predict incidence, response to therapy, and outcome; and laboratory studies of new drugs and biological agents that will lead to clinical trials in patients.

Specific areas of interest include clinical and translational research in: molecular pharmacology and chemotherapy; drug sensitivity and resistance; tumor immunology and immunotherapy; radiobiology and radiation oncology; solid tumor oncology; hematological malignancies; surgical oncology; pediatric oncology; molecular oncology and cancer genes; pathology, markers, and prognostic indicators; growth factors, cytokines, and signal transduction; bone marrow transplantation; gene therapy; cancer endocrinology; cell adhesion, invasion, and metastasis; prevention of primary and recurrent cancer; differentiation and cell death; clinical genetics; and detection of minimal disease.

Editorial Policy
When a manuscript is received for consideration, the Editors assume that no similar paper has been or will be submitted for publication elsewhere. Further, it is understood that all authors listed on a manuscript have agreed to its submission. The signature of the corresponding author on the letter of submission signifies that these conditions have been fulfilled.

Journal policy requires that authors, reviewers, Associate Editors, and Senior Editors reveal in a letter to the Editor-in-Chief any relationships that they have that could be construed as causing a conflict of interest with regard to a manuscript under review. The letter should include a statement of any financial relationships with commercial companies involved with a product under study.

Upon acceptance, authors must transfer copyright to the American Association for Cancer Research, Inc., the copyright owner of the journal, prior to publication. Once an article is accepted for publication in Clinical Cancer Research, the information therein is embargoed from reporting by the media until the mail date of the issue in which the article appears.

The Editors endorse the principles embodied in the Declaration of Helsinki and expect that all investigations involving humans will have been performed in accordance with these principles. To obtain a copy of the Helsinki Declaration, please contact the World Medical Association, 28, Ave. des Alpes, F-01210, Ferney-Voltaire, France. For animal experimentation reported in the journal, it is expected that investigators will have observed the Interdisciplinary Principles and Guidelines for the Use of Animals in Research, Testing, and Education issued by the New York Academy of Sciences' Ad Hoc Committee on Animal Research, a copy of which is available for $5.00 from the Marketing Department, New York Academy of Sciences, 2 East 63rd Street, New York, NY 10021-7289. All human and animal studies must have been approved by the investigator's Institutional Review Board.

Review Process
The review process, expedited by fax transmission and overnight mail service, is conducted as rapidly as possible. Each submitted manuscript is reviewed by at least two experts in the field of investigation. If the authors are invited to submit a revised manuscript for an expedited further review, the revised version must be submitted within three months.

Publication Fees
A page charge of $35 per printed page will be levied on all manuscripts accepted for publication. It is understood at the time of submission that the author(s) agree to pay this charge in the event of publication. Under exceptional circumstances, when no grant or other source of support exists, the author(s) may apply to Dr. Margaret Foti, Director of Publications, AACR Publications Depart-
notes to the text. Personal communications should be substantiated by a letter of permission. Number references in the order of their first mention in the text. Cite only the number assigned to the reference. References must be double-spaced.

SAMPLE REFERENCES:

Figures
Provide four original sets of figures (whether line-cut drawings or half-tones). Each sorted set should be in a separate labeled envelope, for distribution to reviewers. A typed label placed on the reverse side of each figure should contain the first author's name, figure number, and an arrow indicating top of figure. Letters and numbers on figures should not be smaller than 6-point or larger than 12-point type. All figures will be published at a width of approximately 3 inches (8 cm) unless the author requests a greater width. Use tissue overlays to indicate important areas of the photographs that must be reproduced with greater fidelity.

Authors are encouraged to submit color figures. The expense of reproducing color photographs must be offset partially by the author. The cost of color reproduction charged to authors is $975 per color figure. Submit color figures on flexible backing.

Proofs
Page proofs must be returned to the office of the American Association for Cancer Research within 24 hours of receipt. Return proofs by overnight mail. Proofs not received by the deadline will be published without the authors' corrections. Accepted manuscripts are regarded as final copy and should not be altered substantially in proof. Extensive alterations could cause publication delays, and authors will be charged for excessive alterations in proof.

Typesetting Manuscripts from Computer Disks
Clinical Cancer Research requests the submission of disks to expedite production of accepted manuscripts. If your article is accepted for publication, you will receive instructions regarding disk submission. It is the author's responsibility to ensure that the material on the disk matches the final accepted version of the manuscript.

Research Areas of the Editor-in-Chief and Senior Editors
John Mendelsohn, M.D., Editor-in-Chief
Department of Educational Publishing Services–227
The University of Texas M. D. Anderson Cancer Center

An Outstanding Opportunity for Researchers at the Level of Fellow or Junior Faculty to Learn The Essentials of Clinical Trials Design

THE AMERICAN SOCIETY OF CLINICAL ONCOLOGY AND THE AMERICAN ASSOCIATION FOR CANCER RESEARCH PRESENT
Their Second Annual Co-Sponsored Workshop

Methods in Clinical Cancer Research
July 26-August 1, 1997, Vail Cascade Hotel & Club, Vail, Colorado

Supported by a Major Grant from the National Cancer Institute and Generous Contributions from Amgen, Inc., Bristol-Myers Squibb Oncology, and Hoechst Marion Roussel

• A series of lectures by leaders in the field covering all elements of clinical trials design
• Small group discussion sessions on important techniques in clinical research
• Detailed critique of clinical trial protocol concept sheet developed by each participant
• Waiver of Registration Fees and Full Travel and Subsistence Support for Oncology Fellows
• Waiver of Registration Fees and Partial Travel and Subsistence Support for Junior Faculty
• Category I CME credits through ASCO

Application Deadline: April 30, 1997

PROGRAM COMMITTEE

ASCO
Charles A. Coltman, Jr., Chairperson
Janice P. Dutcher
Michael A. Friedman
Steven Piantadosi
Mark J. Ratain

EUROPEAN JOURNAL OF CANCER

European Journal of Cancer is the one outstanding pan-European, multidisciplinary journal covering all aspects of cancer.

- Original Research, Editorial Comment, Review Articles, Short Communications, Book Reviews, News & Letters on:
  - Experimental Oncology
  - Clinical Oncology (medical, paediatric, surgical & radiation)
  - Cancer epidemiology and Prevention.

Editor in Chief
Professor Hans-Jörg Senn, Interdisciplinary Oncology Centre, Kantonsspital, St. Gallen, Switzerland.

European Journal of Cancer is affiliated to:
- FECS- Federation of European Cancer Societies- ESTRO, SIOP, ESSO, ESMO & EONS
- EORTC- European Organisation for Research and Treatment in Cancer
- ESO- European School of Cancer
- EACR-European Association for Cancer Research.

AMERICAN ASSOCIATION FOR CANCER RESEARCH
GUIDELINES FOR APPLICATION FOR ACTIVE AND CORRESPONDING MEMBERSHIP

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACC), a scientific society of over 11,500 laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage the presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world.

Members of the AACR enjoy the following benefits:
1. the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting;
2. an advance copy of the Program and Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
3. reduced registration rates at annual meetings;
4. priority notice of small, focussed meetings in the AACR’s exciting series of Special Conferences in Cancer Research;
5. substantially reduced registration rates for Special Conferences;
6. opportunities for participation in AACR meetings in North America and abroad with other scientific societies around the world;
7. receipt of AACR Newsletters and other important announcements;
8. early notification of and reduced rates for participation in the AACR Employment Register;
9. an up-to-date Membership Directory of over 11,500 member researchers in the cancer field;
10. the professional benefits of the AACR’s public education activities concerning funding for cancer research and press coverage of the latest research findings;
11. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators;
12. the facilitation of informal scientific exchange with leading researchers in the cancer field; and
13. many more ongoing benefits.

QUALIFICATIONS FOR MEMBERSHIP

Active membership in the AACR is open to investigators who live in the Americas. Individuals who have conducted two years of research resulting in peer-reviewed publications relevant to cancer, or who have made substantial contributions to cancer research in an administrative or educational capacity, are eligible. If a candidate has conducted research in an area of biomedical science related to cancer, he or she will qualify for membership. Evidence of patents relevant to cancer research may be submitted as qualifications for membership in lieu of peer-reviewed publications.

Corresponding membership is open to persons who are not residents of the Americas. The qualifications for corresponding membership are the same as those indicated above for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin by the anticipated time of election should apply for corresponding membership. All other visiting scientists should apply for active membership and transfer to corresponding status upon leaving the Americas.

Graduate and medical students, postdoctoral fellows, and physicians in training who do not yet meet the above qualifications for active or corresponding membership should apply for associate membership. Forms for associate membership are available from the AACR Office.

PROCEDURES FOR APPLICATION

There are three deadlines for the receipt of a membership application: January 1, May 1, and September 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors which formally elects all members. The same procedure is followed by the Special Memberships Committee which receives applications for corresponding membership. Candidates will be notified according to the following schedule:

<table>
<thead>
<tr>
<th>Receipt of Application in AACR Office</th>
<th>Notification of Candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td>January 1</td>
<td>March</td>
</tr>
<tr>
<td>May 1</td>
<td>July</td>
</tr>
<tr>
<td>September 1</td>
<td>November</td>
</tr>
</tbody>
</table>

A complete application consists of the following material:
1. 6 copies of the form on the opposite side of this page, with all requested information provided.
2. 5 copies of the candidate’s most current curriculum vitae and bibliography.
3. 5 copies of a letter of recommendation from a nominator who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). This letter should describe the candidate’s achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical standards. –OR– The nominator may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
4. 4 copies of a letter of recommendation as described in item 3 above from a second who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). –OR– The second may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
5. 5 reprints of each of two publications on which the candidate appears as author. As noted above, evidence of patents developed by the candidate may be submitted in lieu of one or both of the publications. If submitting patents, supply patent number and year awarded.

All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

American Association for Cancer Research
Public Ledger Building, Suite 826
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9313
E-mail: aacrc@aacr.org

RESPONSIBILITIES OF MEMBERSHIP

Candidates should be aware of the following responsibilities of membership in the AACR. Active members must pay annual dues. In 1997 annual dues for active members are $175, $100 of which is designated for AACR journal subscriptions. Newly elected members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, non-member rates will receive reimbursement of the unused portion of those subscriptions once their first year’s membership dues are paid in full.

Corresponding members are required to pay dues ($90 in 1997) and may, if they wish, subscribe to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at reduced member rates.

Applicants elected in March will be responsible for payment of that year’s dues; applicants elected in July and November will pay dues for the following year. Applicants elected in March and July will be eligible to sponsor an abstract for the next annual meeting. Every effort will be made to afford the same opportunity to applicants elected in November.

Margaret Foti, Ph.D.
Executive Director

**STATEMENT OF SUPPORT**

Instead of submitting letters of recommendation, either the nominator or the seconder or both may complete the following section:

I acknowledge by signing this statement of support that this candidate adheres to accepted ethical scientific standards and has or will make a long-term contribution to cancer research.

**Signature of Nominator**

**Date**

**Signature of Seconder**

**Date**

See Guidelines for Application on the reverse side of this form for further instructions.

*Both nominator and seconder must be active, corresponding, emeritus, or honorary members of the AACR.*

(This form may be reproduced.)
QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who are following a course of study or who are working in a research program relevant to cancer. Scientists in training who already have a substantial record of publications may wish to apply for active or corresponding membership which confers full benefits of membership.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world. Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting provided that (a) the associate member is the presenter of the paper and (b) an active, corresponding, emeritus, or honorary member in good standing of the AACR also signs the abstract of the paper in support of the work. In this instance, the member who cosigns the abstract does not lose his or her own sponsorship privilege;
2. an advance copy of the scientific Program and (if one has been purchased by the associate member) the Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
3. the privilege of registering for the annual meeting at the low associate member rate;
4. preferred access to the AACR Employment Register;
5. optional subscriptions to the Association’s high-quality journals Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at reduced member rates;
6. priority notification of events in the AACR’s series of special conferences on timely subjects in the field;
7. substantially reduced registration rates at special conferences;
8. the receipt of AACR newsletters, meeting announcements, and an up-to-date Membership Directory;
9. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators; and
10. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active, corresponding, emeritus, or honorary member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the nominator. In addition, the candidate should submit one copy of his or her curriculum vitae. The application form may be submitted to the Association Office at any time.

After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check for one year’s dues payment must accompany the application. Dues for 1996 are $35 for associate members residing in the Americas and $45 for residents of other countries. For 1997 these rates are $45 and $55, respectively. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be in U.S. currency, made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the appropriate dues payment to:

American Association for Cancer Research
Public Ledger Building, Suite 826
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9313
E-mail: aacr@aacr.org

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1996 have been set at $35 per year for residents of the Americas and $45 for residents of other countries. For 1997 these rates are $45 and $55, respectively. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in November 1996 for the forthcoming annual meeting must have paid dues for 1996. Any newly elected associate members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member’s subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member’s current registrar, dean, or department head, verifying the member’s current academic status. The Association’s By-Laws state that dues are payable for each year in advance by January 1 of the year to which they should be applied. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1996 may retain associate membership until December 31, 2000. The Board of Directors may terminate the membership of an associate member whose dues are in arrears for two years.

Margaret Foti, Ph.D.
Executive Director
AMERICAN ASSOCIATION FOR CANCER RESEARCH, INC.

CANDIDATE NOMINATED BY*:____________________________________________________________________

(Please print)

SIGNATURES

I hereby apply for associate membership in the American Association for Cancer Research. I have read the instructions on the reverse side of this form, and I understand the privileges and responsibilities of this class of membership. I certify that the statements on this application are true.

Signature of Candidate:________________________________________________________ Date:____________________

I recommend this candidate for associate membership in the American Association for Cancer Research. To the best of my knowledge, the candidate is qualified for this class of membership, and the statements on this application are true.

Signature of Nominator*:______________________________________________________ Date:____________________

Submit three copies of this form. At least one copy must contain the original signatures of the candidate and the nominator. In addition, submit one copy of your curriculum vitae. Enclose a check in U.S. funds, made payable to AACR, Inc., and drawn on a U.S. bank for one year's dues. For 1996, dues are $35 for associate members residing in the Americas and $45 for residents of other countries. For 1997, these rates will be $45 and $55, respectively.

Check one of the following boxes only if this form is being submitted between September 1 and December 31:
The enclosed dues payment should be applied to the [ ] current [ ] forthcoming calendar year.

(NOTE: If dues are applied to the forthcoming year, membership will take effect on January 1, but the candidate will not be eligible to sponsor an abstract for presentation at the annual meeting in March or April of that year.) See Guidelines for Application on the reverse side of this form for further instructions.

*Nominator must be active, corresponding, emeritus, or honorary member of the AACR.

Disks produced on IBM or IBM-compatible computers are preferred, but those produced on some Apple or Wang computers can also be converted. Because of the file structures and internal coding, we cannot accept disks created on desktop publishing systems or those created on proprietary typesetting systems. We also cannot guarantee that all special characters can be translated. Tabular and mathematical material, such as equations, will not be captured from the disk but will be rekeyed.

To expedite work and for your own security, we do require that you submit a hard copy printout of the disk file. The tables and equations will be keyed from this hard copy. We also need to know the name of the file to be converted, the type of hardware (e.g., IBM PC) on which the files were created, the operating system (e.g., DOS 3.3), and the version of the software (e.g., WordPerfect 5.1) used to create the file.

PLEASE FILL OUT ALL INFORMATION ON REVERSE SIDE AND SUBMIT THIS FORM WITH YOUR DISK. DISKS WILL NOT BE PROCESSED WITHOUT THIS INFORMATION.
DISK SUBMISSION FORM

AACR journals are now using personal computers to copyedit manuscripts accepted for publication. When submitting a revised manuscript, authors are encouraged to submit an electronic disk of the paper along with the required four hard copy printouts. Disks will ultimately be returned to the authors.

See reverse for the word processing packages that can be accepted.

File preparation

Please be sure that the file you send is the most recent version of the manuscript and that it matches the most recently submitted printed copy. The file should contain all the parts of the manuscript in one file. Mathematical and tabular material, however, will be processed in the traditional manner and may be excluded from the disk file.

Note: AACR does not assume responsibility for errors in conversion of customized software, newly released software, or special characters.

Please label the outside of the disk with the journal name, the first author’s name, a partial title of the manuscript, and the name of the computer file used to access the manuscript on disk. To process your disk efficiently, we need the following information. Please be sure to provide ALL the information.

Name used to access paper on disk: ____________________________________________
Name of computer used (e.g., IBM/PS2): _______________________________________
Operating system and version (e.g., DOS 3.3): _________________________________
Word processing program and version (e.g., WordPerfect 5.0): ___________________
[See reverse for acceptable programs.]

Manuscript number: _________________________________________________________
First author: _______________________________________________________________
Corresponding author (if different from first author): _____________________________
Telephone/FAX numbers: ____________________________________________________

This form (both sides) may be reproduced.
Clinical and translational investigations continue to have a dramatic impact on the treatment of cancer, making the need for up-to-date information increasingly important. Every month, basic and clinical cancer researchers turn to Clinical Cancer Research for the latest reports of significant new studies. Act now to ensure you receive research findings that are too important to miss.

THE AMERICAN ASSOCIATION FOR CANCER RESEARCH PRESENTS

Three Outstanding Training Opportunities
Supported by Major Grants from the National Cancer Institute
Primarily for Postdoctoral and Oncology Fellows

Waiver of Registration Fees and Partial Subsidy of Lodging and Subsistence Expenses for Qualified Fellows

Molecular Biology in Clinical Oncology
A thorough overview of concepts in molecular biology designed for clinical oncologists in training

June 27-July 3, 1997, The Given Biomedical Institute, Aspen, CO
Stephen H. Friend, L. Michael Glodé, and Jennifer A. Pietenpol, Organizers

• Lectures by leading experts on molecular biology concepts and the latest developments in molecular oncology
• Small group laboratory sessions to demonstrate the important experimental techniques utilized in molecular biology
• Career development session and scheduled networking opportunities
• Application Deadline: March 31, 1997

Molecular Biology and Pathology of Neoplasia
(formerly entitled Histopathobiology of Neoplasia)
The Edward A. Smuckler Memorial Workshop

Intensive training in the molecular biology and morphology of human cancer for graduate students and postdoctoral fellows contemplating careers in basic cancer research

July 6-13, 1997, Keystone Resort, Keystone, CO
Robert Low, Course Director

• Twenty-eight hours of hands-on laboratory exercises directed by distinguished pathologists
• An outstanding series of lectures on rapidly developing areas of cancer research by laboratory directors and other prominent investigators
• Poster presentations by students and faculty to facilitate further scientific exchange
• Application Deadline: April 30, 1997

Methods in Clinical Cancer Research
Co-Sponsored by the American Society of Clinical Oncology (ASCO)
The essentials of clinical trials design for researchers at the level of fellow or junior faculty

July 26-August 1, 1997, Vail Cascade Resort and Club, Vail, CO
Daniel D. Von Hoff and Charles A. Coltman, Jr., Chairpersons

• A series of lectures by leaders in the field covering all elements of clinical trials design
• Small group discussion sessions on important techniques in clinical research
• Development of a clinical trial protocol by all participants with detailed critiques by faculty members
• Category I CME credits through ASCO
• Application Deadline: April 21, 1997
