Notice to Members of the American Association for Cancer Research
Officers for 1997-1998
President: Donald S. Coffey, Johns Hopkins University School of Medicine, Baltimore, MD 21287-2101
President-Elect: Webster K. Cavenee, Ludwig Institute for Cancer Research, La Jolla, CA 92093-0660
Treasurer: Bayard D. Clarkson, Memorial Sloan-Kettering Cancer Center, New York, NY 10021
Executive Director: Margaret Foti, AACR, Public Ledger Bldg., Suite 826, Philadelphia, PA 19106-3483

Annual Dues
The annual dues of active members of the American Association for Cancer Research are $175, $50 of which may be applied to a subscription to Clinical Cancer Research. Corresponding members of the Association will be charged an appropriate fee to offset periodicals postage costs. Payment of dues and changes of address of members of the Association should be sent promptly to Margaret Foti, Executive Director, American Association for Cancer Research, Public Ledger Bldg., Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483; Telephone: (215) 440-9300; FAX: (215) 440-9313.

Submission of Manuscripts
Clinical Cancer Research, a journal of the American Association for Cancer Research, publishes original articles describing clinical research on the cellular and molecular characterization, prevention, diagnosis, and therapy of human cancer. Its focus is on innovative clinical research and translational research which bridges the laboratory and the clinic. Clinical Cancer Research is especially interested in clinical trials evaluating new treatments for cancer; research on molecular abnormalities that predict incidence, response to therapy, and outcome; and laboratory studies of new drugs and biological agents that will lead to clinical trials in patients. All submissions undergo peer review. Papers should be sent directly to an appropriate Senior Editor or to the Editor-in-Chief for review. See “Instructions for Authors” (page ii of this issue) for complete mailing addresses of the Editor-in-Chief and Senior Editors.

Back Issues and Single Copy Sales of the Journal
Copies of back stock of the journal may be ordered from Clinical Cancer Research, P.O. Box 3000, Denville, NJ 07834 [Telephone: (800) 875-2997 or (201) 627-2427; FAX: (201) 627-5872]. As long as supplies permit, single copies will be sold by this company at $25.00/copy. Orders outside the U.S. add $3/copy to offset postage costs.

Advertisements
Advertisement insertion orders and copy must be received one month prior to the date of issue in which the advertisement is to be published. The journal is mailed on approximately the 1st day of the month of issue. Inquiries about advertising should be directed to: M. J. Mrvica Associates, Inc., 155 South White Horse Pike, Berlin, NJ 08009 [Telephone: (609) 768-9360; FAX: (609) 753-0064].

Copyright and Permissions
Authors who wish to publish in Clinical Cancer Research must formally transfer copyright to the proprietor of the journal, the American Association for Cancer Research, Inc. It is understood by this transfer that the authors relinquish all exclusive rights of copyright ownership, including the rights of reproduction, derivation, distribution, sale, and display.

Authors who prepared their articles as part of their official duties as employees of the U.S. Federal Government are not required to transfer copyright to the American Association for Cancer Research, Inc., since these articles are considered to be in the public domain. In the case of articles supported by federal grants or contracts, copyright transfer to the American Association for Cancer Research, Inc., is required. The federal government may retain a nonexclusive license to publish or republish such material.

The Journal will routinely allow authors (or others with the permission of the authors) to include select parts of a copyrighted article in reviews, books, or subsequent papers, upon written request to the AACR Director of Publications. Requests to reproduce an article in its entirety will be considered on an individual basis and permission may be granted contingent upon payment of an appropriate copyright fee. All reproduction requests must include a brief description of intended use and a stamped, self-addressed envelope. Third parties should obtain the approval of the authors before corresponding with the AACR.

Those who wish to photocopy articles should contact the AACR Publications Department [Telephone: (215) 440-9300; FAX: (215) 440-9354].

No responsibility is accepted by the Editors, by the American Association for Cancer Research, Inc., or by Cadmus Journal Services for the opinions expressed by contributors or for the content of the advertisements.

Clinical Cancer Research is abstracted and/or indexed in Cancer Lit., Chemical Abstracts, and Current Contents (Clinical Medicine).

Clinical Cancer Research (ISSN 1078-0432) is published monthly by the American Association for Cancer Research, Inc., Public Ledger Bldg., Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483 for $50 annually for members and $105 for individual nonmembers. Clinical Cancer Research is only available to institutions as a combined subscription with Cancer Research. The combined 1997 institutional subscription price of $685 includes $170 for a subscription to Clinical Cancer Research. Periodicals postage paid at Philadelphia, PA and additional mailing offices. Annals of Medicine is an international general medical journal publishing articles from a wide spectrum of fields and with the specific aim of bridging the gap between different specialties, so readers can keep abreast with major developments in specialties other than their own. Two regular series are published and focused to serve this cause: Trends in Clinical Practice and Trends in Molecular Medicine both report on clinically relevant achievements of basic science.

Special Sections feature commissioned and peer-reviewed papers from international congresses and symposia. Educational papers that express new developments in different areas of medicine in a short comprehensive and easily digested format are marked with the CME label (Continuous Medical Education).

Breast Cancer:
Genetics and Risk Evaluation Workshop
Sponsored by
The University of Michigan Comprehensive Cancer Center
Workshop I: July 8–July 13
Workshop II: July 29–August 3

Purpose:
The University of Michigan Comprehensive Cancer Center, supported by funds from the National Institutes of Health, is sponsoring two five-day workshops during the summer of 1997. These intensive workshops will provide a concentrated exposure to subject areas germane to inherited breast cancer care including DNA science, mutations and inheritance patterns, and cancer family case management. The workshops are designed for physicians, nurses, genetic counselors, social workers and other health professionals with an interest in risk assessment for breast cancer.

Prior knowledge of genetics is not a requirement.

Organizers:
Soofa D. Mersayar, MD, PhD.
Director, Breast and Ovarian Cancer Risk Evaluation Program

Diane Baker, MS,
Director, Genetic Counseling Program and Genetics Education Program

Virginia LeClaire, RN, BSN,
Breast and Ovarian Cancer Risk Clinic Coordinator

Questions?
If you have questions regarding the workshop or the application process, please call or email:
Laurie Blumberg, Workshop Coordinator

Institution of Page Charges
Effective January 1, 1997, a page charge of $35 per printed page was levied on all manuscripts published in Clinical Cancer Research. It is understood at the time of submission that the author(s) agree to pay this charge in the event of publication. Under exceptional circumstances, when no other source of grant or other support exists, the author(s) may apply to Dr. Margaret Foti, Director of Publications, AACR Publications Department (see page ii for address) at the time of submission for a waiver of the page charges. All such applications must be countersigned by an appropriate institutional official stating that no funds are available for the payment of page charges.

Annual Meeting
The AACR’s Annual Meeting is one of the largest and most important annual gatherings of scientists engaged in cancer research worldwide. The next Annual Meeting will take place in New Orleans, LA, March 28–April 1, 1998. The Chairperson of the Annual Meeting is Frank J. Rauscher III of the Fox Chase Cancer Institute. The Program Committee will invite outstanding scientists in the field to organize plenary sessions, symposia, controversy sessions, and meet-the-expert sunrise sessions. They also look forward to receiving for consideration the proffered papers submitted by members of the cancer research community. All abstracts must be sponsored by an AACR member in good standing. The deadline for receipt of abstracts in the AACR office will be October 28, 1997.

Call for Nominations for AACR Awards
The Association presents six awards to distinguished scientists at its Annual Meeting. The Awards Committee, consisting of six separate subsections, will recommend candidates for each award to the AACR Executive Committee. Below you will find a description of each of these awards. Members wishing to make nominations should provide a short description of the candidates’ accomplishments; the subcommittee involved will obtain further documentation on suitable candidates. Nominations may be directed to the Association Office for forwarding to the appropriate subcommittee. This material should be received no later than September 15, 1997.

Clowes Memorial Award. The Eli Lilly Company established the Clowes Memorial Lecture to honor Dr. G. H. A. Clowes, who was a founding member of the AACR and a research director of Eli Lilly. The purpose of the award is to give “recognition of outstanding research accomplished in some recent period.” The Clowes Award should recognize outstanding recent accomplishments in basic cancer research, and the Board of Directors construes this to mean both laboratory research and epidemiological investigations.

Joseph H. Burchenal AACR Clinical Research Award. Bristol-Myers Squibb has established this award to recognize outstanding achievements in clinical cancer research. It is named for Dr. Joseph H. Burchenal, past president and honorary member of the AACR, and a leading figure in the field of cancer chemotherapy. There are no restrictions on the age or geographic location of the awardee.

Richard and Hindo Rosenthal Foundation Award. The Rosenthal Foundation has established this award to recognize research which has made or gives the promise of soon making a notable contribution to improved clinical care in the field of cancer. The Foundation wishes to honor and provide incentive to young investigators relatively early in their careers. It has, therefore, stipulated that the Association restrict the award to individuals who are engaged in the practice of medicine, who reside in the Americas, and who will not be more than 50 years of age at the time of the award (March 1998).

AACR Special Conferences in Cancer Research
A number of meetings are now being organized in the AACR’s series of smaller scientific meetings. Following are the topics, dates, locations, and program committees for some of these meetings. When full details of each meeting are available, AACR members will be the first to receive complete brochures and application forms for participation in these important conferences. Nonmembers may receive this information by sending their names and addresses to Meetings Mailing List, American Association for Cancer Research, Public Ledger Building, 150 South Independence Mall West, Suite 826, Philadelphia, PA 19106-3483. Telephone: (215) 440-9300. Fax: (215) 440-9313. E-Mail: aacr@aacr.org. Up-to-date program information is available via the Internet from the AACR’s website (http://www.aacr.org/confmc.html).

AACR Bulletin Board

AACR
The American Association for Cancer Research (AACR) was founded in 1907 to bring together active investigators of the cancer problem for the presentation and discussion of new findings and to foster advances in cancer research. Today the Association has 13,000 members chosen from all of the subspecialties of cancer research in the United States, Canada, and more than 60 other countries. Information on AACR programs and activities can be obtained from
American Association for Cancer Research

The AACR welcomes applications for membership from the research community. Scientists engaged in all areas of cancer research are eligible for membership. There are three categories of membership: active membership, open to cancer researchers working in the Americas; corresponding membership, to those working outside the Americas; and associate membership, to graduate and medical students, postdoctoral fellows, and physicians-in-training. Further information on the qualifications for each category as well as the benefits of membership can be found on the application forms at the back of this issue.
