Institution of Page Charges
Effective January 1, 1997, a page charge of $35 per printed page was levied on all manuscripts published in Clinical Cancer Research. It is understood that the author(s) agree to pay this charge in the event of publication. Under exceptional circumstances, when no other source of grant or other support exists, the author(s) may apply to Dr. Margaret Foti, Director of Publications, AACR Publications Department (see page ii for address) at the time of submission for a waiver of the page charges. All such applications must be countersigned by an appropriate institutional official stating that no funds are available for the payment of page charges.

Annual Meeting
The AACR's Annual Meeting is one of the largest and most important annual gatherings of scientists engaged in cancer research worldwide. The next Annual Meeting will take place in New Orleans, LA, March 28-April 1, 1998. The Chairperson of the Annual Meeting is Frank J. Rauscher III of the Wistar Institute. The Program Committee will invite outstanding scientists in the field to organize plenary sessions, symposia, controversy sessions, and meet-the-expert sunrise sessions. They also look forward to receiving for consideration for presentation the proffered papers submitted by members of the cancer research community. All abstracts must be sponsored by an AACR member in good standing. The deadline for receipt of abstracts in the AACR office will be October 28, 1997.

Call for Nominations for AACR Awards
The Association presents six awards to distinguished scientists at its Annual Meeting. The Awards Committee, consisting of six separate subsections, will recommend candidates for each award to the AACR Executive Committee. Below you will find a description of each award. Members wishing to make nominations should provide a short description of the candidate's accomplishments: the subcommittee involved will obtain further documentation on suitable candidates. Nominations may be directed to the Association Office for forwarding to the appropriate subcommittee. This material should be received no later than September 15, 1997.

Cloves Memorial Award. The Eli Lilly Company established the Cloves Memorial Lecture to honor Dr. G. H. A. Cloves, who was a founding member of the AACR and a research director of Eli Lilly. The purpose of the award is to give "recognition of outstanding research accomplished in some recent period." The Cloves Award should recognize outstanding recent accomplishments in basic cancer research, and the Board of Directors construes this to mean both laboratory research and epidemiological investigations.

Joseph H. Burchenal AACR Clinical Research Award. Bristol-Myers Squibb has established this award to recognize outstanding achievements in clinical cancer research. It is named for Dr. Joseph H. Burchenal, past president and honorary member of the AACR, and a leading figure in the field of cancer chemotherapy. There are no restrictions on the age or geographic location of the awardee.

Richard and Hinda Rosenthal Foundation Award. The Rosenthal Foundation has established this award to "recognize research which has made or gives the promise of soon making a notable contribution to improved, clinical care in the field of cancer." The Foundation wishes to honor and provide incentive to young investigators relatively early in their careers. It has, therefore, stipulated that the Association restrict the award to individuals who are engaged in the practice of medicine, who reside in the Americas, and who will not be more than 50 years of age at the time of the award (March 1998).

Rhoads Memorial Award, In 1979, an anonymous donor established this award in memory of Dr. Cornelius P. Rhoads, a founder and the first Director of the Sloan-Kettering Institute for Cancer Research. This annual award is intended to give recognition to an "individual based on meritorious achievement in cancer research." In accordance with the donor's wishes, the awardee must be a young investigator; therefore, the Board of Directors of the Association has stipulated that the recipient must not have reached his or her 41st birthday by the time of the award (March 1998).

Cain Memorial Award. The Warner-Lambert Company instituted this award to honor the memory of Dr. Bruce F. Cain of New Zealand for his work in the "design, synthesis, and biological evaluation of potential anticaner drugs." The purpose of the award is to "give recognition to an individual or research team for outstanding preclinical research that has implications for the improved care of cancer patients." Examples of such research include discovery of a significant new anticancer agent and major contributions to a compound's application as an antitumor agent. The award will recognize outstanding contributions in the fields of medicinal chemistry, biochemistry, or tumor biology as related to drug discovery, will encompass anticaner, antiviral, and antifungal agents, and will have no age limit; and will be international in scope.

American Cancer Society Award. The American Cancer Society sponsors this award to honor outstanding achievements in the fields of epidemiology, biomarkers, and prevention. There are no age or geographical restrictions on the awardee.

AACR Special Conferences in Cancer Research
A number of meetings are now being organized in the AACR's series of smaller scientific meetings. Following are the topics, dates, locations, and program committees for some of these meetings. When full details of each meeting are available, AACR members will be the first to receive complete brochures and application forms for participation in these important conferences. Nonmembers may receive this information by sending their names and addresses to Meetings Mailing List, American Association for Cancer Research, Public Ledger Building, 150 South Independence Mall West, Suite 826, Philadelphia, PA 19106-3483. Telephone: (215) 440-9300. FAX: (215) 440-9313. E-Mail: aacr@aacr.org. Up-to-date program information is available via the Internet from the AACR's web-site (http://www.aacr.org/confncmc.html).

September 26-30, 1997
Tumor Suppressor Genes
Co-Sponsored by the National Cancer Institute of Canada
Chairpersons: PHILIP BRANTON, Montreal, Quebec, Canada
STEPHEN H. FRIEND, Seattle, WA
Victoria Conference Centre, Victoria, BC, Canada
January 9-13, 1998
Molecular Mechanisms of Programmed Cell Death
Chairpersons: JOHN C. REED, La Jolla, CA
VISHVA M. DIXIT, S. San Francisco, CA
Renaissance Esmeralda Resort, Palm Springs, CA
January 18-22, 1998
Angiogenesis and Cancer
Chairpersons: JUDAH FOLKMAN, Boston, MA
MICHAEL KLAGSBRUN, Boston, MA
Hyatt Orlando, Orlando, FL
Instructions for Authors

Scope

Clinical Cancer Research, a journal of the American Association for Cancer Research, publishes original articles describing clinical research on the cellular and molecular characterization, prevention, diagnosis, and therapy of human cancer. Its focus is on innovative clinical research and translational research which bridges the laboratory and the clinic. Clinical Cancer Research is especially interested in clinical trials evaluating new treatments for cancer; research on molecular abnormalities that predict incidence, response to therapy, and outcome; and laboratory studies of new drugs and biological agents that will lead to clinical trials in patients.

Specific areas of interest include clinical and translational research in: molecular pharmacology and chemotherapy; drug sensitivity and resistance; tumor immunology and immunotherapy; radiobiology and radiation oncology; solid tumor oncology; hematological malignancies; surgical oncology; pediatric oncology; molecular oncology and cancer genes; pathology, markers, and prognostic indicators; growth factors, cytokines, and signal transduction; bone marrow transplantation; gene therapy; cancer endocrinology; cell adhesion, invasion, and metastasis; prevention of primary and recurrent cancer; differentiation and cell death; clinical genetics; and detection of minimal disease.

Editorial Policy

When a manuscript is received for consideration, the Editors assume that no similar paper has been or will be submitted for publication elsewhere. Further, it is understood that all authors listed on a manuscript have agreed to its submission. The signature of the corresponding author on the letter of submission signifies that these conditions have been fulfilled.

Journal policy requires that authors, reviewers, Associate Editors, and Senior Editors reveal in a letter to the Editor-in-Chief any relationships that they have that could be construed as causing a conflict of interest with regard to a manuscript under review. The letter should include a statement of any financial relationships with commercial companies involved with a product under study.

Upon acceptance, authors must transfer copyright to the American Association for Cancer Research, Inc., the copyright owner of the journal, prior to publication. Once an article is accepted for publication in Clinical Cancer Research, the information therein is embargoed from reporting by the media until the mail date of the issue in which the article appears.

The Editors endorse the principles embodied in the Declaration of Helsinki and expect that all investigations involving humans will have been performed in accordance with these principles. To obtain a copy of the Helsinki Declaration, please contact the World Medical Association, 28, Ave. des Alpes, F-01210, Ferney-Voltaire, France. For animal experimentation reported in the journal, it is expected that investigators will have observed the Interdisciplinary Principles and Guidelines for the Use of Animals in Research, Testing, and Education issued by the New York Academy of Sciences’ Ad Hoc Committee on Animal Research, a copy of which is available for $5.00 from the Marketing Department, New York Academy of Sciences, 2 East 63rd Street, New York, NY 10021-7289. All human and animal studies must have been approved by the investigator’s Institutional Review Board.

Review Process

The review process, expedited by fax transmission and overnight mail service, is conducted as rapidly as possible. Each submitted manuscript is reviewed by at least two experts in the field of investigation. If the authors are invited to submit a revised manuscript for an expedited further review, the revised version must be submitted within three months.

Publication Fees

A page charge of $35 per printed page will be levied on all manuscripts accepted for publication. It is understood at the time of submission that the author(s) agree to pay this charge in the event of publication. Under exceptional circumstances, when no grant or other source of support exists, the author(s) may apply to Dr. Margaret Foti, Director of Publications, AACR Publications Depart-

ment (see page ii for address) at the time of submission for a waiver of the page charges. All such applications must be countersigned by an appropriate institutional official stating that no funds are available for the payment of page charges.

Procedures for Submission

Submit papers directly to one of the six Senior Editors, each of whom is responsible for a particular area of research. Senior Editors will conduct the review process with the expert assistance of the journal’s Associate Editors, will correspond with authors about their manuscripts, and will make editorial decisions regarding publication. Papers within the subject areas covered by the Editor-in-Chief, as well as manuscripts that do not pertain to any of the research areas listed, should be submitted to Dr. Mendelsohn. Research areas, mailing addresses, and telephone and fax numbers for the Editor-in-Chief and Senior Editors can be found at the end of these Instructions.

Submit four original sets (not photocopies) of figures along with four copies of the manuscript. If a manuscript is closely related to papers that are in press or have been submitted elsewhere, please provide copies of those papers with your submission. For both original and revised submissions, we cannot guarantee that manuscripts and illustrations will be returned to the author.

The letter of submission can suggest the Associate Editors who might serve as reviewers of the manuscript. In addition, we invite authors to provide the names, addresses, and telephone/fax numbers of other potential reviewers who are not current or recent collaborators or advisors in the area under investigation.

Advances in Brief will be reserved for concise, definitive reports of novel observations and discoveries that have unusual importance. A request for consideration for Advances in Brief should be included in the letter of submission. A Minireview is a brief analysis (typically 3-4 printed pages) of a focused, timely research topic, aimed at a multidisciplinary audience. Minireviews and Controversies in Clinical Cancer Research that are submitted or solicited will undergo editorial review. The Editors welcome Letters to the Editor, which will be published if they are determined to be appropriate.

Format

Manuscripts must be written succinctly in clear, grammatical English. Define abbreviations in an inclusive footnote to the text. Double-space on 8 1/2 x 11-inch paper. Dot-matrix printing is not acceptable. The format is as follows:

1. Title page, including title, author(s) and their institutions, research support, and address plus telephone/fax numbers of the corresponding author;
2. A running title of fewer than 50 characters;
3. Three to five key words that do not appear in the title;
4. Abstract, of not more than 250 words, stating briefly the objectives, methods, results, and conclusions of the study;
5. Text arranged in this order: Introduction, Methods, Results, Discussion, Acknowledgments, References;
6. Footnotes, on a page separate from the text. Designate footnotes consecutively with superscript Arabic numerals;
7. Tables, on pages separate from the text, with descriptive titles and legends that make the data understandable without reference to the text;
8. Figure legends, on pages separate from the text, with descriptive titles and explanations to make the data understandable without reference to the text. Define all symbols and include staining for halftones where applicable;

References

Include only those articles that have been published or are in press. Unpublished data or personal communications must be cited as foot-
notes to the text. Personal communications should be substantiated by a letter of permission. Number references in the order of their first mention in the text. Cite only the number assigned to the reference. References must be double-spaced.

SAMPLE REFERENCES:

Figures
Provide four original sets of figures (whether line-cut drawings or halftones). Each set of figures must be submitted as a separate labeled envelope, for distribution to reviewers. A typed label placed on the reverse side of each figure should contain the first author’s name, figure number, and an arrow indicating top of figure. Letters and numbers on figures should not be smaller than 6-point or larger than 12-point type. All figures will be published at a width of approximately 3 inches (8 cm) unless the author requests a greater width. Use tissue overlays to indicate important areas of the photographs that must be reproduced with greater fidelity.

Authors are encouraged to submit color figures. The expense of reproducing color photographs must be offset partially by the author. The cost of color reproduction charged to authors is $975 per color figure. Submit color figures on flexible backing.

Proofs
Page proofs must be returned to the office of the American Association for Cancer Research within 24 hours of receipt. Return proofs by overnight mail. Proofs not received by the deadline will be published without the authors’ corrections. Accepted manuscripts are regarded as final copy and should not be altered substantially in proof. Extensive alterations could cause publication delays, and authors will be charged for excessive alterations in proof.

Typesetting Manuscripts from Computer Disks
Clinical Cancer Research requests the submission of disks to expedite production of accepted manuscripts. If your article is accepted for publication, you will receive instructions regarding disk submission. It is the author’s responsibility to ensure that the material on the disk matches the final accepted version of the manuscript.

Research Areas of the Editor-in-Chief and Senior Editors
John Mendelsohn, M.D., Editor-in-Chief
Department of Educational Publishing Services–227
The University of Texas M. D. Anderson Cancer Center
1515 Holcombe Boulevard
Houston, TX 77030

Programs consist of 1, 2 or 3 cassettes.
Ports are limited before program titles.

- CAN 700 (3 cassettes, $34.50) Public Session: Progress and New Hope in the Fight Against Cancer: A Public Forum Highlighting the Latest Discoveries
- CAN 701 (2 cassettes, $23) Educational Session 2: Cancer Research in the Post-Genome Era
- CAN 702 (3 cassettes, $34.50) Methods Workshop 1: Bioinformatics in Cancer Research
- CAN 703 (2 cassettes, $23) Methods Workshop 2: Differential Display in Gene Discovery and Functional Analysis
- CAN 704 (2 cassettes, $23) Methods Workshop 3: Protein-Protein Interactions
- CAN 705 (2 cassettes, $23) Educational Session 4: Nonviral Delivery Systems for Gene Therapy
- CAN 706 (2 cassettes, $23) Educational Session 5: The Biology of Cancer Metastasis
- CAN 707 (2 cassettes, $23) Educational Session 1: Genetics and Biochemistry of Programmed Cell Death
- CAN 708 (2 cassettes, $23) Educational Session 3: Telomerase, Cellular Senescence, and Cancer
- CAN 709 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Molecular Approaches to the Management of Ovarian Cancer (Robert C. Bart, Jr.)
- CAN 710 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Transcriptional Models and Drug Discovery (William G. Kalet, Jr.)
- CAN 711 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Research Issues and Special Populations (Otto W. Brunko)
- CAN 712 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Cancer Vaccines (David F. Carbone)
- CAN 713 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Chemoprevention in Transgenic Animals (James M. Phang)
- CAN 714 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Advances in Stem Cell Transplantation (Elizabeth J. Stiff)
- CAN 716 (2 cassettes, $23) Plenary Session: Genetic Predisposition to Cancer
- CAN 717 (1 cassette, $11.50) Presentation by the Director of the National Cancer Institute (Richard D. Klausner)
- CAN 718 (1 cassette, $11.50) Thirty-Seventh G.H.A. Cloesow Memorial Award Lecture: "bcl-2 Gene Family and the Regulation of Cell Death" (Stanley J. Kornemer)
- CAN 719 (1 cassette, $34.50) Mini-symposium Pharmacology/Therapeutics 11: Molecular Mechanisms Controlling Sensitivity to Antidotes
- CAN 720 (3 cassettes, $34.50) Mini-symposium Radiobiology/Radiation Oncology 2: Genetic Determinants of Cellular Response to Radiation
- CAN 721 (2 cassettes, $23) Mini-symposium Biology 6: Proteins: Invasion and Regulation
- CAN 722 (2 cassettes, $23) Mini-symposium Epidemiology/Prevention 2: Genetic Susceptibility
- CAN 723 (2 cassettes, $23) Symposium 1: Genes, Cell Proliferation, and Antineoplastic Drugs
- CAN 724 (2 cassettes, $23) Symposium 2: Acute Myeloid Leukemia
- CAN 725 (2 cassettes, $23) Symposium 3: New Techniques for Molecular Diagnostics
- CAN 726 (2 cassettes, $23) Symposium 4: Behavioral and Psychosocial Methods in Cancer Epidemiology and Control
- CAN 727 (1 cassette, $11.50) Second Joseph H. Burchenal AACR Clinical Research Award: "Antigen Receptors as Targets for Immunotherapy of Lymphoma" (Ronald Levy)
- CAN 728 (2 cassettes, $23) Minority Issues Committee Cancers Symposium
- CAN 729 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Advances in the Management of AIDS-related Malignancies (Alan G. Equail)
- CAN 730 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: How to Get Your New Idea into the Clinic — Experiences with Antiangiogenesis Agents (Elise C. Kolb)
- CAN 731 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: The Biological Basis of the New International Classification of Lymphomas (Elaine S. Jaffe)
- CAN 732 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: FHIT Gene Alterations in Cancer (Kay Hiebert)
- CAN 733 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Advances in Oncological Imaging (Michael J. Wald)
- CAN 734 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Cancer Survivorship Research (Anna T. Meadows)
- CAN 735 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: p53 and Public Health Perspectives (Geoffrey M. Wahl)
- CAN 736 (2 cassettes, $23) Symposium 5: Demonstrating the Role of Cytokines in Tumor Immunology: Status and Future Utility
- CAN 737 (2 cassettes, $23) Symposium 6: Epidemiology and Pathogenesis of Secondary Cancers
- CAN 738 (2 cassettes, $23) Symposium 7: Animal Models for Functional Analysis of Tumor Suppressor Genes
- CAN 739 (3 cassettes, $34.50) Mini-symposium Pharmacology/Therapeutics 17: Molecular Mechanisms of Drug Resistance
- CAN 740 (2 cassettes, $23) Mini-symposium Molecular Biology/ Biochemistry 11: Novel Tumor Suppressor Genes and New Interactions of Known Tumor Suppressor Genes
- CAN 741 (2 cassettes, $23) Mini-symposium Clinical Investigations 4: Clinical Relevance of p53 Mutations
- CAN 742 (3 cassettes, $34.50) Mini-symposium Carcinogenesis 6: Gene Regulation in Tumor Initiation, Promotion, and Progression
- CAN 743 (1 cassette, $11.50) Symposium 1: What is the Role of Prophylactic Surgery in Breast and Ovarian Cancer?
- CAN 744 (1 cassette, $11.50) Presentation of the Fifth Gertrude Elion Cancer Research Award
- CAN 745 (1 cassette, $11.50) Sixth American Cancer Society Award Lecture on Cancer Epidemiology and Prevention: “Etiology, Natural History, Management, and Molecular Genetics of HNPC (Lynch Syndromes): Genetic Counseling Implications” (Henry T. Lynch)
- CAN 747 (2 cassettes, $23) Mini-symposium Biology 14: Regulation of Apoptosis
- CAN 748 (3 cassettes, $34.50) Mini-symposium Immunology/Biological Therapy 7: Tumor Antigen Presentation, Co-stimulation, Normal and Abnormal T Cell Activation
- CAN 749 (3 cassettes, $34.50) Mini-symposium Molecular Biology/ Biochemistry 15: Regulation of Gene Expression in Signal Transduction
- CAN 750 (2 cassettes, $23) Symposium 8: Prostate Cancer
- CAN 751 (2 cassettes, $23) Symposium 9: Cell Cycle Regulation
- CAN 752 (2 cassettes, $23) Symposium 10: Gene Interactions with the Environment/Carcinogenesis
- CAN 753 (1 cassette, $11.50) “NCI Listens”: A Session Organized by the National Cancer Institute’s Board of Scientific Advisors
- CAN 754 (1 cassette, $11.50) Annual Business Meeting of the American Association for Cancer Research, Inc.
- CAN 755 (1 cassette, $11.50) NCI Training Branch Workshop
- CAN 756 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Approaches to Using Genes as Cancer Therapies (Jack A. Balk)
- CAN 757 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Mechanisms Regulating p53 Function (Guillermina Lazcano)
- CAN 758 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Farnesyl Transferase Inhibitors: Attacking the Molecular Basis of Cell Transformation (Alan J. Chizz)
- CAN 759 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Helicobacter pylori as a Carcogen (William C. Cary)
- CAN 760 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: New Approaches to Overcoming Multidrug Resistance (Alan F. List)
- CAN 761 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: Human Cancer Genotypes: Travel to Cyberspace (Kenneth H. Buetow)
- CAN 762 (1 cassette, $11.50) Meet-the-Expert Sunrise Session: DNA Methylation in Cancer (Stephen B. Bastin)

Audio & Video Cassette Order Form

American Association for Cancer Research
88th Annual Meeting
April 12 - 16, 1997 • San Diego, CA
The following programs will be available on video cassette (Allow 4 - 6 weeks for delivery)

Each video program consists of one cassette, $39.00

**BONUS OPTION**

Buy entire set of video cassettes, and receive a 10% discount.

---

**PLEASE PRINT AND RETURN ENTIRE FORM**

**SEND TO:** TEACH 'EM, 160 EAST ILLINOIS ST., CHICAGO, IL 60611

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society of over 11,500 laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage the presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world.

Members of the AACR enjoy the following benefits:

1. the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting;
2. an advance copy of the Program and Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
3. reduced registration rates at annual meetings;
4. priority notice of small, focused meetings in the AACR’s exciting series of Special Conferences in Cancer Research;
5. substantially reduced registration rates for Special Conferences;
6. opportunities for participation in AACR meetings in North America and abroad with other scientific societies around the world;
7. receipt of AACR Newsletters and other important announcements;
8. early notification of and reduced rates for participation in the AACR Employment Register;
9. an up-to-date Membership Directory of over 11,500 member researchers in the cancer field;
10. the professional benefits of the AACR’s public education activities concerning funding for cancer research and press coverage of the latest research findings;
11. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators;
12. the facilitation of informal scientific exchange with leading researchers in the cancer field; and
13. many more ongoing benefits.

QUALIFICATIONS FOR MEMBERSHIP

Active membership in the AACR is open to investigators who live in the Americas. Individuals who have conducted two years of research resulting in peer-reviewed publications relevant to cancer, or who have made substantial contributions to cancer research in an administrative or educational capacity, are eligible. If a candidate has conducted research in an area of biomedical science related to cancer, or he or she will qualify for membership. Evidence of patents relevant to cancer research may be submitted as qualifications for membership in lieu of peer-reviewed publications.

Corresponding membership is open to persons who are not residents of the Americas. The qualifications for corresponding membership are the same as those indicated above for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin by the anticipated time of election should apply for corresponding membership. All other visiting scientists should apply for active membership and transfer to corresponding status upon leaving the Americas.

Graduate and medical students, postdoctoral fellows, and physicians in training who do not yet meet the above qualifications for active or corresponding membership should apply for associate membership. Forms for associate membership are available from the AACR Office.

PROCEDURES FOR APPLICATION

There are three deadlines for the receipt of a membership application: January 1, May 1, and September 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors which formally elects all members. The same procedure is followed by the Special Memberships Committee which receives applications for corresponding membership. Candidates will be notified according to the following schedule:

<table>
<thead>
<tr>
<th>Receipt of Application in AACR Office</th>
<th>Notification of Candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td>January 1</td>
<td>March</td>
</tr>
<tr>
<td>May 1</td>
<td>July</td>
</tr>
<tr>
<td>September 1</td>
<td>November</td>
</tr>
</tbody>
</table>

A complete application consists of the following material:

1. 6 copies of the form on the opposite side of this page, with all requested information provided.
2. 5 copies of the candidate’s most current curriculum vitae and bibliography.
3. 5 copies of a letter of recommendation from a nominator who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). This letter should describe the candidate’s achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical scientific standards. –OR– The nominator may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
4. 5 copies of a letter of recommendation as described in Item 3 above from a seconder who is an active, corresponding, emeritus, or honorary member of the AACR (at least one copy must be a signed, original letter). –OR– The seconder may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
5. 5 reprints of each of two publications on which the candidate appears as author. As noted above, evidence of patents developed by the candidate may be submitted in lieu of one or both of the publications. If submitting patents, supply patent number and year awarded.

All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

American Association for Cancer Research
Public Ledger Building, Suite 826
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9313
E-mail: aacr@aacr.org

RESPONSIBILITIES OF MEMBERSHIP

Candidates should be aware of the following responsibilities of membership in the AACR. Active members must pay annual dues. In 1997 annual dues for active members are $175, $100 of which is designated for AACR journal subscriptions. Newly elected members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rates will receive reimbursement of the unused portion of those subscriptions once their first year’s membership dues are paid in full.

Corresponding members are required to pay dues ($90 in 1997) and may, if they wish, subscribe to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at reduced member rates.

Applicants elected in March will be responsible for payment of that year’s dues; applicants elected in July and November will pay dues for the following year. Applicants elected in March and July will be eligible to sponsor an abstract for the next annual meeting. Every effort will be made to afford the same opportunity to applicants elected in November.

Margaret Foti, Ph.D.

STATEMENT OF SUPPORT
Instead of submitting letters of recommendation, either the nominator or the seconder or both may complete the following section:

I acknowledge by signing this statement of support that this candidate adheres to accepted ethical scientific standards and has or will make a long-term contribution to cancer research.

Signature of Nominator* ______________________ Date ______________________ Signature of Seconder* ______________________ Date ______________________

See Guidelines for Application on the reverse side of this form for further instructions.

*Both nominator and seconder must be active, corresponding, emeritus, or honorary members of the AACR.
QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who are following a course of study or who are working in a research program relevant to cancer. Scientists in training who already have a substantial record of publications may wish to apply for active or corresponding membership which confers full benefits of membership.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACC), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world. Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting provided that (a) the associate member is the presenter of the paper and (b) an active, corresponding, emeritus, or honorary member in good standing of the AACR also signs the abstract of the paper in support of the work. (In this instance, the member who cosigns the abstract does not lose his or her own sponsorship privilege.);
2. an advance copy of the scientific Program and (if one has been purchased by the associate member) the Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
3. the privilege of registering for the annual meeting at the low associate member rate;
4. preferred access to the AACR Employment Register;
5. optional subscriptions to the Association’s high-quality journals Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at reduced member rates;
6. priority notification of events in the AACR’s series of special conferences on timely subjects in the field;
7. substantially reduced registration rates at special conferences;
8. the receipt of AACR newsletters, meeting announcements, and an up-to-date Membership Directory;
9. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators; and
10. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active, corresponding, emeritus, or honorary member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the nominator. In addition, the candidate should submit one copy of his or her curriculum vitae. The application form may be submitted to the Association Office at any time.

After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check for one year’s dues payment must accompany the application. Dues for 1996 are $35 for associate members residing in the Americas and $45 for residents of other countries. For 1997 these rates are $45 and $55, respectively. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be in U.S. currency, made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the appropriate dues payment to:

American Association for Cancer Research
Public Ledger Building, Suite 825
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9313
E-mail: aacr@aacc.org

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1996 have been set at $35 per year for residents of the Americas and $45 for residents of other countries. For 1997 these rates are $45 and $55, respectively. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in November 1996 for the forthcoming annual meeting must have paid dues for 1996. Any newly elected associate members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member’s subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member’s current registrar, dean, or department head, verifying the member’s current academic status. The Association’s By-Laws state that dues are payable for each year in advance by January 1 of the year to which they should be applied. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1996 may retain associate membership until December 31, 2000. The Board of Directors may terminate the membership of an associate member whose dues are in arrears for two years.

SIGNATURES

I hereby apply for associate membership in the American Association for Cancer Research. I have read the instructions on the reverse side of this form, and I understand the privileges and responsibilities of this class of membership. I certify that the statements on this application are true.

Signature of Candidate:__________________________________________ Date:_____________

I recommend this candidate for associate membership in the American Association for Cancer Research. To the best of my knowledge, the candidate is qualified for this class of membership, and the statements on this application are true.

Signature of Nominator*:__________________________________________ Date:_____________

Submit three copies of this form. At least one copy must contain the original signatures of the candidate and the nominator. In addition, submit one copy of your curriculum vitae. Enclose a check in U.S. funds, made payable to AACR, Inc., and drawn on a U.S. bank for one year’s dues. For 1996, dues are $35 for associate members residing in the Americas and $45 for residents of other countries. For 1997, these rates will be $45 and $55, respectively.

Check one of the following boxes only if this form is being submitted between September 1 and December 31:
The enclosed dues payment should be applied to the ☐ current ☐ forthcoming calendar year.

(NOTE: If dues are applied to the forthcoming year, membership will take effect on January 1, but the candidate will not be eligible to sponsor an abstract for presentation at the annual meeting in March or April of that year.) See Guidelines for Application on the reverse side of this form for further instructions.

*Nominator must be active, corresponding, emeritus, or honorary member of the AACR.

Software packages that we are unable to translate:

FrameMaker
PageMaker
Ready, Set, Go
Scientific Writer

Disks produced on IBM or IBM-compatible computers are preferred, but those produced on some Apple or Wang computers can also be converted. Because of the file structures and internal coding, we cannot accept disks created on desktop publishing systems or those created on proprietary typesetting systems. We also cannot guarantee that all special characters can be translated. Tabular and mathematical material, such as equations, will not be captured from the disk but will be rekeyed.

To expedite work and for your own security, we do require that you submit a hard copy printout of the disk file. The tables and equations will be keyed from this hard copy. We also need to know the name of the file to be converted, the type of hardware (e.g., IBM PC) on which the files were created, the operating system (e.g., DOS 3.3), and the version of the software (e.g., WordPerfect 5.1) used to create the file.

PLEASE FILL OUT ALL INFORMATION ON REVERSE SIDE AND SUBMIT THIS FORM WITH YOUR DISK. DISKS WILL NOT BE PROCESSED WITHOUT THIS INFORMATION.
DISK SUBMISSION FORM

AACR journals are now using personal computers to copyedit manuscripts accepted for publication. When submitting a revised manuscript, authors are encouraged to submit an electronic disk of the paper along with the required four hard copy printouts. Disks will ultimately be returned to the authors.

See reverse for the word processing packages that can be accepted.

File preparation

Please be sure that the file you send is the most recent version of the manuscript and that it matches the most recently submitted printed copy. The file should contain all the parts of the manuscript in one file. Mathematical and tabular material, however, will be processed in the traditional manner and may be excluded from the disk file.

Note: AACR does not assume responsibility for errors in conversion of customized software, newly released software, or special characters.

Please label the outside of the disk with the journal name, the first author’s name, a partial title of the manuscript, and the name of the computer file used to access the manuscript on disk. To process your disk efficiently, we need the following information. Please be sure to provide ALL the information.

Name used to access paper on disk: ____________________________________________________
Name of computer used (e.g., IBM/PS2): _______________________________________________
Operating system and version (e.g., DOS 3.3): _________________________________________
Word processing program and version (e.g., WordPerfect 5.0): ___________________________
   [See reverse for acceptable programs.]

Manuscript number: _________________________________________________________________
First author: _________________________________________________________________________
Corresponding author (if different from first author): _________________________________
Telephone/FAX numbers: ____________________________________________________________
