Submission of Manuscripts

Clinical Cancer Research, a journal of the American Association for Cancer Research, publishes original articles describing clinical research on the cellular and molecular characterization, prevention, diagnosis, and therapy of human cancer. Its focus is on innovative clinical research and translational research which bridges the laboratory and the clinic. *Clinical Cancer Research* is especially interested in clinical trials evaluating new treatments for cancer; research on molecular abnormalities that predict incidence, response to therapy, and outcome; and laboratory studies of new drugs and biological agents that will lead to clinical trials in patients. All submissions undergo peer review. Papers should be sent directly to an appropriate Senior Editor or to the Editor-in-Chief for review. See "Instructions for Authors" (page ii of this issue) for complete mailing addresses of the Editor-in-Chief, Deputy Editor, and Senior Editors.

Back Issues and Single Copy Sales of the Journal

Breast Cancer Investigator
Kaplan Comprehensive Cancer Center (NCI designated)
NYU Medical Center

The Kaplan Comprehensive Cancer Center of NYU Medical Center is seeking new and mid level independent investigators for its recently created Breast Cancer Research Program. One of nine formal research programs of the Cancer Center, the development of this program is currently supported by a grant from the NCI. Research areas of particular interest include: molecular prognostic markers, characterization and exploitation of immunology targets, identification of genetic changes suggesting susceptibility to breast cancer. Work with large populations in cancer genetics is highly desirable.

The breast cancer investigator position will have a tenure track academic position in an appropriate department of the NYU School of Medicine. Candidates must demonstrate research productivity in conducting peer reviewed (or equivalent) breast cancer research; preferred will be candidates in a translational research milieu.

NYU Medical Center, one of the nation's leading academic medical centers, is located in midtown Manhattan, with all of its cultural attractions. For further information or to apply for the position, submit a copy of your curriculum vitae including bibliography and grant support to:
