Supplementary Table 1 – Tumour, patient information and miR-27a/b and SLC7A11 mRNA expression data from the 139 patient cohort used to generate figure 6 a,b.

Supplementary Table 2 - Tumour, patient information and SLC7A11 protein expression data from the 215 patient cohort used to generate figure 6 c,d.

Supplementary Figure 1 – Standalone qPCR validation of microRNA-27a expression in EJ and EJ-R cells.

Expression of microRNA-27a in cisplatin sensitive EJ and Cisplatin Resistant EJ-R cells as measured by taqman qPCR, p<0.005.
