Supplementary Figure S1

A. Males

Recurrence-free survival (%)

- Low (n=33)
- High (n=11) $P = 0.14$

Time after surgery (years)

B. Males

Overall survival (%)

- Low (n=33)
- High (n=11) $P = 0.65$

Time after surgery (years)

C. Current or former smokers

Recurrence-free survival (%)

- Low (n=37)
- High (n=13) $P = 0.16$

Time after surgery (years)

D. Current or former smokers

Overall survival (%)

- Low (n=37)
- High (n=13) $P = 0.58$

Time after surgery (years)

E. Patients without EGFR mutation

Recurrence-free survival (%)

- Low (n=44)
- High (n=12) $P = 0.19$

Time after surgery (years)

F. Patients without EGFR mutation

Overall survival (%)

- Low (n=44)
- High (n=12) $P = 0.07$

Time after surgery (years)
