AMERICAN ASSOCIATION FOR CANCER RESEARCH

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR) is a scientific society consisting of over 11,000 laboratory and clinical cancer researchers. It was founded in 1907 "to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world." Members of the AACR enjoy the following benefits:

- the opportunity to subscribe to AACR's four prestigious journals: *Cancer Research*, *Clinical Cancer Research*, *Cell Growth & Differentiation*, and *Cancer Epidemiology, Biomarkers & Prevention*, at reduced member rates.
 - * ***Cancer Research*** publishes about 6,300 pages per year of timely and significant research in the broad subfields of cancer research. With over 69,000 citations to its articles per year, it is the most highly cited journal in the cancer field and now ranks 16th among 10,000 scientific journals worldwide.
 - * ***Clinical Cancer Research***, a new AACR journal which was launched last year, already has about 4,500 subscribers, and encompasses both clinical and translational research. It publishes exciting clinical trials evaluating new treatments for cancer as well as preclinical studies that will lead to clinical trials.
 - * ***Cell Growth & Differentiation***, the Association's journal covering the molecular biology of cancer, is dedicated to bringing cutting-edge molecular cancer research rapidly to print. With over 2,000 subscribers, this monthly journal has established itself as an important source of significant new data in molecular oncology.
 - * ***Cancer Epidemiology, Biomarkers & Prevention***, which features new findings in cancer epidemiology, risk assessment and carcinogenesis, cancer prevention and control, and biomarkers for cancer detection, became a monthly publication in January 1996.
- the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting; (The AACR annual meeting is attended by more than 6,500 scientists from around the world and is the meeting you can't afford to miss. Scientists consider our annual meeting the most important multidisciplinary cancer meeting which encompasses basic research, clinical cancer research, and the exciting interface area of translational research.)
- an advance copy of the Program and *Proceedings of the American Association for Cancer Research* that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
- reduced registration rates at annual meetings;
- priority notice of small, focussed meetings in the AACR's exciting series of **Special Conferences in Cancer Research**;
- substantially reduced registration rates for Special Conferences;
- opportunities for participation in AACR meetings in North America and abroad with other scientific societies around the world;
- receipt of **AACR Newsletters** and other important announcements;
- early notification of and reduced rates for participation in the **AACR Employment Register**;
- an up-to-date **Directory of Members** containing names and addresses of over 11,000 member researchers in the cancer field;
- the professional benefits of AACR's public education activities concerning funding for cancer research and press coverage of the latest research findings;
- the opportunity to participate in three **Summer Workshops** that foster knowledge in the cancer field for young investigators;
- the facilitation of informal scientific exchange with leading researchers in the cancer field; and
- many more ongoing benefits.
