

## Correction: AXL Is a Logical Molecular Target in Head and Neck Squamous Cell Carcinoma

Toni M. Brand, Mari Iida, Andrew P. Stein, Kelsey L. Corrigan, Cara M. Braverman, John P. Coan, Hannah E. Pearson, Harsh Bahrar, Tyler L. Fowler, Bryan P. Bednarz, Sandeep Saha, David Yang, Parkash S. Gill, Mark W. Lingen, Vassiliki Saloura, Victoria M. Villaflor, Ravi Salgia, Randall J. Kimple, and Deric L. Wheeler

In the original version of this article (1), three figures are incorrect. Fig. 6 uses the same image to represent "No Antibody" for UW-SCC36 and UW-SCC6; Fig. 2C includes bar graphs that exhibit irregularities, including an improperly scaled  $y$ -axis; and Fig. 2B contains duplicate images in two different cases (SCC104 and SCC2). The authors provided the journal with corrected files for Fig. 6, Fig. 2C, and for SCC104 in Fig. 2B; because corrected files were not available for SCC2 in Fig. 2B, the incorrect images were removed from the figure. These errors have been corrected in the latest online HTML and PDF versions of the article. The authors regret these errors.
