ABOUT THE COVER

This cover shows a multiplex fluorescence image visualized using the Ultivue Ultimapper PD-L1 kit with colors as follows: blue, nuclei; red, PD-L1; yellow, CD68 cells; and green, cytokeratin. Quantification of these images showed PD-L1 in the CD68 compartment is associated with response to durvalumab with chemotherapy in the neoadjuvant setting. For details, see the article by Ahmed and colleagues on page 5456 of this issue.
